

NTA Junior Rankings

Rankings points for a registered NTA player is obtained by taking part in NTA tournaments. Each player receives points in each tournament based on their results.

What factors determine points per tournament: -

- Player results (e.g. 1st, 2nd, 3rd etc.)
 - The higher the result, the more points a player will receive.
 - If a player does not play in the tournament after formal entry, or if the player withdraws during a tournament without cause no points will be received.
 - When a player withdraws during a tournament due to a valid medical or other reason and a result is determinable, points will be awarded subject to NTA review.
- Player age group (e.g. u10, u12, u14, U16 etc.)
 - Different age groups are allocated different ranking points. Higher age groups are allocated higher ranking points.
 - If an u12 player for instance plays in an u14 tournament, the u12 player will receive ranking points from the u14 table.
- Number of players in an age group
 - The more players in a group the more points are on offer.
 - For Singles the player numbers are: -

 - 6 – 10 Players

Ranking points calculation

- Both Single and Doubles matches are considered in ranking points calculation;
- A player will have a single, doubles and combined ranking;
- Singles and doubles ratings are based on your best 5 tournament outcomes in a rolling 12-month period.
- A player's combined ranking is a combination of 100% single rating points plus 25% of their double rating points.
- After each tournament, a new ranking list is published on SportyHQ by the NTA junior committee.

This requires the team to do a match-by-match points review, cross check, and on-line publication. If you do find any omissions/errors or have any questions, please contact the Junior NTA team.
