- Apr. 1,2 Early Release Grades 1-8—Parent Teacher conferences

The month of March is Nutrition Month! Think of healthy things to eat and make it a good habit!

Music Festival at GSAA

Ongoing Events

Avoid Getting Sick!

Public health experts say the best way to protect yourself from the new type of coronavirus—and help keep it from spreading—is to follow the same simple advice people take to avoid colds and other common illnesses. These tips can help stop many viruses in their tracks.

- Wash your hands frequently with soap and water, for at least 20 seconds each time.
 - You can use hand sanitizer. Just check the label to make sure it contains at least 60 percent alcohol. Apply a generous amount and then rub it on your hands and fingers for about 20 seconds.
 - Avoid touching your eyes, nose, and mouth.
 - If someone else is obviously sick, keep your distance if you can—even just a few feet.
 - Cough and sneeze into a tissue—then toss the tissue in the trash. No tissue? Cough and sneeze into your elbow—and then wash your hands!

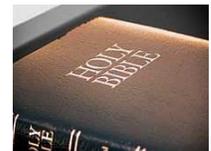

Stay home when you are sick.

Thursdays—

6:30pm, Devotional Bible Study in the Preschool Classroom
Adventurers in the Kindergarten Room
Pathfinders in the Youth room upstairs

Fridays—

2:30pm, Lego Robotics

Bible Study every Thursday night at 6:30 in the preschool. You are welcome to join us at any time as we go through the Bible and discuss how it pertains to our lives.

(bring your kids and they can play in the preschool while we do Bible study)

Pictures of Spirit Week are on Facebook!

Hot Lunch—\$4

Tuesday—Pizza

Thursday—Macaroni & Cheese

Classroom News

Mrs. Davidson's Class

This has been Spirit Week and we have fun reading books by Dr. Seuss and had a special theme every day. Monday was Oh, the Places You'll Go and dress for where you want to go; Tuesday was The 500 Hats of Bartholomew Cubbins and hat day; Wednesday was The Cat in the Hat and twin day; Thursday was Fox in Socks and silly socks day; Friday was The Lorax and wear orange day. Spirit Week is always a highlight for the students.

We finished our first unit on the life of Joseph in Bible class, and have moved on to the second unit about his life in Egypt. Through these lessons we are learning that we learn to trust God through the struggles in life because He will always be with us. In Science we have been studying Earth Science, and this week we focused on earthquakes and volcanoes.

Track and Field Day is coming up in May, and the students need to start getting in shape. We had our third Personal Best Day on Friday, and we will be incorporating more running into our regular program. Please encourage your students to get active now that it's nicer weather, not just for track and field, but also for their own personal health.

Have a great weekend!

Teacher Martha's Class

Growing and season changes were the topics of the week. We looked at how our bodies and the animals around us grow as the seasons change the world around us. The little boy in our story, "The Growing Story", was worried that he was not growing. His puppy and baby chicks were growing and he could see that, but he didn't see himself growing. But as he put on his winter clothes from the winter before, he realized he was growing. Sometimes we cannot see changes in ourselves, but those around us can. They can also see what kind of choices we make.

In Bible, we are studying Daniel and how even when it was not popular, he prayed to God and only God. He knew what he believed and didn't go against his beliefs when things got tough. God helped Daniel and He will help us to make good choices and will always be there for us.

Dr. Seuss has been a wonderful piece of the reading world and this week we spent some time each day focusing on his stories. Thank you to the parents that helped their kiddo participate in spirit week. We were able to watch the Lorax with the big kids on Friday. It was a fun week of rhyming and stories.

We found a new game this week. It is a strategy game and the kids did really well with it. It is called Logik Street and they have to read clues that help them determine which house each person lives in. It is a critical thinking game and makes them think...I love that they loved playing it!

Next week we will start our body unit! Have a wonderful weekend!

Teacher Holly's Class

We are starting a new unit. This one focuses on Interpersonal Relationship, you know, friends. Our Bible story is about Ruth and Naomi.

I've been working on portfolios and I must say, I'm very proud of the progress my kiddos have made over the past few months. For some it may be making marks to represent the letters in their names. For others it's writing their own name and recognizing the names of others.

It's fun to see their cutting skills improve. Hardest part seems to be holding the scissors. I'd appreciate it if you parents could reinforce that.

Patterning is something we can do with beads, coloring, blocks and even our

bodies. STOMP, CLAP, JUMP, repeat. This children do better than me. 😊

I'm pleasantly surprised how well my students did with puzzle words and shape challenges.
