Health Nugget

Adequate fiber intake helps lower your risk of heart disease because dietary fiber removes cholesterol from the body. Women’s Health Study states that women who ate the most whole-grain fiber had 35% less heart disease than those who ate low fiber diet. Women should eat 25 grams of fiber daily, men eat 38 grams, and children eat 19 grams of fiber daily.

Bulletin Information Deadline: Please contact Pat Pielat by email at pielaetp53@gmail.com by Wednesday afternoon.

From the pen of Inspiration

He whose life consists in ever receiving and never giving soon loses the blessing. If truth does not flow forth from him to others, he loses his capacity to receive. We must impart the goods of heaven if we would have flesh blessings . . . If men will become channels through which God's blessing can flow to others, the Lord will keep the channel supplied. (This Day With God, p. 303).

Call to Worship Song - "His House"

We have come into His house, and gathered in His name, to worship Him. Let's forget about ourselves, and magnify the Lord and worship Him. Let us ask for healing grace And look upon His face, and worship Christ the Lord. Worship Him, Christ the Lord
