Leading by Example

Student-led Week of Prayer

How confident are you? At KACS, students answered that question not only by speaking during Week of Prayer, but also by speaking about confidence. From Oct. 22-26, Hunter C., A.J., Natalie, Mekhi, and Alejandro each spoke about confidence and courage. Various student helped Mrs. Valdenegro lead song service. Over the Sea was a popular action song, and students learned two new songs on video: "Eye of the Storm," and Confidence." Students also led out in prayer, and took time to pray for the requests shared. It was an inspiring week for all.

SPONSOR A STUDENT!

During the holiday season, many people look for a way to help someone else with gifts, food or their time. Why not help a child? KACS is looking for someone to sponsor a child(ren), and that could be you! If you're interested, please see a staff or board member, or call the school office (after the holidays!).

Kids Heart Challenge

Kids Heart Challenge was extended by one week, and the students celebrated by jumping rope and shooting hoops outside on Nov. 9. Thank you for your support with both donations and with helping the students to continue healthy habits. We raised \$325. Prizes that students earned will be delivered later. Also, we say a special thank you to Mr. Rolle for sharing his heart story. Here's to good heart health!

"You must choose for yourselves today. You must decide whom you will serve. . . . As for me and my family, we will serve the Lord"

Joshua 24:15

Calendar

Nov. 15: Thanksgiving Feast @ 11.

Nov. 19-23: Thanksgiving Break-NO School

December 20: Christmas Activity

December 21: 2nd Grading Period Ends

Dec. 24-Jan. 4: Christmas Break-NO School

Jan. 7: 3rd Grading Period Begins

KACS Preschool Program

R in C.R.E.A.T.I.O.N. KIDS is for REST, and students are learning about rest. Also, students visited the library with K-1 and made their own galaxy with water, oil, sparkles and lots and lots of glitter. Look for pics next month.

K-1st BEAR'S DEN

The Bear Cubs studied pumpkins during October. Zolani says, "We touched the pumpkin and took the seeds out. We put it in the water, and then it floated!" Nathan says, "We weighed the pumpkin, and it was 21.9 lbs." Moriah says, "We learned to get the seeds out. We cleaned the seeds. We just licked them." Luke says, "We learned about pumpkins. It floated! It didn't sink. We got a spoon, and got them (seeds) out, and counted them by 10's."

Mrs. Rolle's Report

"In 2nd/3rd Bible, we are studying about Jericho. For a fun activity, we played a game. A few people are spies and they hide under their desks. One person is Rahab, and two are soldiers. Whenever the spies move to another desk, 'Rahab' tries to save the spy, while the 'soldiers' tries to capture the spy. When the game was over, we learned about the story of Rahab saving two spies, by putting a scarlet rope in her window. The spies went out of the city before it was dark and stayed in the hills for 3 days. God gave Joshua important instructions: They had to march around Jericho 1 time for 6 days, and on the 7th day, they had to march around 7 times. But all of them were silent during the march. On the 7th time, on the 7th day, the priests blew the trumpet 1 long blast, and the people shouted. The walls of Jericho came tumbling down! I liked this

story because God can do mighty miracles, and whenever we have faith, and do what God says, He can do many miracles." -Natalie, 2nd grade.

"What we've been learning in Bible is that Elijah was a prophet. He once doubted God, and he was the only prophet left for God. Most of the people turned to Baal. In one of the activities that we did, we read 1 Kings Chapters 11-18, and we had to make True & False questions about it. He inspires me because once he doubted God, but then he went back to God, and knew what to do. It helps me when I doubt God." -Chloe, 4th grade

5-8 Express Thoughts!

We (2/3 Science) started with the sheep's brain, and Ms. K pointed to all the spots we are learning, like the cerebrum and the medulla, and the cerebellum. We learned that the left side of the brain controls the right side of the body, and the right side of the brain controls the left side of the body. The sheep's brain felt slimy, squishy, and had some smooth, slimy bumps. I've never gotten to see any organ in my whole life! -Evans, 3rd grade.

We looked at a 9 month-old sheep's brain, and touched it, and it felt slimy. We couldn't dissect the brain because something was wrong and the brain bled a lot. We looked at the parts of the brain like the medulla and cerebrum. The human brain and the sheep's brain have the same parts, but sheep can't do what humans do (ride a bike, drive, get jobs). We saw that the sheep's head and the eye, also. -Jaiden, 6th grade.
