

To the man who taught us to work hard....

**Just in case you ever wonder if you are loved... we do.
if you are cherished ...you are.
And just in case you doubt your appreciation... don't
As the kids say.... you rock.**

**Just in case you forget the steadiness and strength
you impart....just remember.
and just so you know.... you are irreplaceable,
never under valued and always esteemed.**

**Just in case you ever forget where
you always live...its here inside us.
And just in case you wonder where you will always
reside....you have a permanent address
....in our hearts,**

The generation personally instigated by you....us.
