Protects against oxidative stress and helps
reduce inflammation in the body

How NEURO Works

HYDRASTAT™ MOLECULAR ENCAPSULATION TECHNOLOGY FOR MAXIMUM EFFICACY

HydraStat™ Molecular Encapsulation Technology

The HydraStat™ technology breaks down large particles by enveloping them in ultra-pure water clusters that are absorbed orally before entering the digestive process.

Swish for optimal absorption

Swish NEURO in your mouth for 30 seconds or more to allow all its critical nutrients to be absorbed into your body.

Enhanced ingredient efficacy

The Hydrastat™ technology implemented in NEURO breaks down its already powerful ingredients into tiny particles for optimal absorption, thus enhancing their efficacy.
