 Adventurers in the Kindergarten Room
 Pathfinders in the Youth room upstairs.

Fridays—
 2:30pm, Lego Robotics

For information on these activities, call
 Joseph States 208-871-7376

Devotional:

Because your love is better than life, my lips will glorify you. Psalm 63:3
 I have God's love in my heart. I see God's love in His creations. Your mouth should speak with good words and respect. Use good words and actions to show your love for the Lord. When you say a bad word, you're not thinking about God's love for you. If you are going to do or say something that is wrong, just think about how God loves you and cares for you more than you could imagine. – Cadance, 5th grade

Thanks to all who came to the Valentine's Breakfast on Wednesday! We sure were glad to see you all!

Poetry Corner:

My Valentine

I have a Valentine,
 She is pretty cute.
 She doesn't like chocolate,
 But a nice salad would do.
 She is kind of chubby,
 And has a crazy hair do.
 She is pretty patient
 And she loves a quiet room.

Her name is Daisy-
 My favorite guinea pig! – Khyler, 4th grade

The Great Valentine's Rush

Cars are fast
 Valentines is near
 It's time to cheer
 Race is finished
 Time to have a good time. – Kaleb, 2nd grade

Classroom News:

Grades 3-7

We helped the community service Mobile Food Pantry on Monday. On Tuesday, it was my birthday and we did math tests and got our work done fast. On Wednesday was our Valentine's breakfast, and we read about King Saul in Bible. Friday is our Valentine's party. – Sydney, 3rd grade

Grades 1-2

On Wednesday we had our Valentine's breakfast. Thank you, Teacher Martha, for putting it together – it was fun! I got to play tag. In P.E. we played basketball and color tag. In Bible we finished our unit on the Sanctuary. In Science we finished our unit on force and motion, and watched some Science Max. On Friday we had chapel. This month we are learning about goodness in chapel. Friday afternoon we had our Valentine's party. Remember, no school next Monday-Wednesday. Have a great long weekend! – Jack, 1st grade

Preschool/Kindergarten

The kindergarten class is studying arctic animals. They also are counting by 2's 5's and 10's and finding the missing letters in words. They are also reading *Petunia the Ugly Pug*. For snack time they like to eat crackers and cheese. Finally, the best part is the Valentine party on Friday! – Ivan, 6th grade

Childcare/Preschool

This week the preschoolers started new letters and sounds. They made heart prints and they finger painted. They read about Daniel in the lions' den, and they learned some new songs. The songs were "Counting to 100" and "Move and Freeze". They enjoyed the Valentine breakfast and are really excited for the Valentine's party on Friday! – Luke, 5th grade

Geography Spotlight: Fun facts about China

Fun fact #1 China has the largest population in the world, with over 1.3 billion people.

Fun fact #2 If you put all of China's train tracks together, it can loop around the earth two times!

Fun fact #3 A Chinese New Year's celebration lasts for 15 days!

Fun fact #4 Ice cream was invented in China 4,000 years ago.

Fun fact #5 Ancient Chinese people created the world's first soccer ball and it was made of leather.

Fun fact #6 Did you know China builds a new skyscraper every five days?

Fun fact #7 Did you know the Terracotta Army in Xi'an China, took 37 years to build and it has 8,000 clay soldiers in it? They were built to guard the king when he died. – Havilah, 5th grade

Volcanos

A volcano is a mountain that opens downward to a pool of molten rock below the surface of the earth. When pressure builds up, eruptions occur. In an eruption, gasses and rock shoot up through the opening and spill over or fill the air with lava fragments. The biggest volcanoes are on Mars! On earth, volcanoes are most often found where tectonic plates are diverging or converging, even underwater. I have been to the Kilauea volcano. 3 or 4 months after we were at Kilauea it exploded! – Mateo, 4th grade

How To: Make a 3D See-through Valentine heart

We made these in art class last week. First you have to have an epoxy mold and clear epoxy. Then you can get some decorations like roses, confetti hearts, or glitter. Then you mix the epoxy. You pour it slowly into the mold adding the decorations as you build up layers. Let the epoxy dry and then remove it from the mold. I wonder how yours will turn out! – Joshua, 6th grade

Student Spotlight:

This week I interviewed Colton. He is six and a half years old and is in first grade. His favorite subject is art. His favorite color is dark blue. He has one older sister. His favorite animal is a panda. He has two dogs, one cat, and a bearded dragon. Finally, his favorite food is strawberries. – Makenzie, 4th grade
