

## PRAYER TOPICS - WEEK BEGINNING 15th May 2023

A picture was given by a lady who was reflecting on what Pastor Dave had said, that Dereham was the heart of Norfolk. The lady said that she felt God say that it is the season to focus on the entrance and exits of the heart. She also said focus and pray on what is coming into Dereham. We have the authority to pray for protection on the entrances to our town, putting a Godly boundary around it.

Nigel mentioned that there seems to be quite a bit of progression happening in Dereham at the moment, and this is a good reminder to pray about which parts we should come alongside in support and which parts we should not get involved with.

May I suggest that the church (not just DBC) should be the beating heart and God the stimulator to that heart.

Therefore this week again draw close to God and listen intently to what He is saying. Spend time asking God to guide you in your prayers, who and what to pray for. Ask God to show what His priorities are for the Town. Pray for the new councillors who have been elected for the Town, that they may be influenced by God's priorities for the Town not their own agendas. Ask God to guide the leaders of the churches to do God's bidding. Pray that God through His church might have a real breakthrough in this Town.

Remember the Veil has been torn and that we can go right into the Throne Room to talk and listen to the victorious King of Kings. **We are on the victory side.**

Blessings

Richard
