Office Hours
Monday–Thursday: 9 a.m.–5 p.m. (U.S. Eastern Time)
Friday: 9 a.m.–12 p.m. (U.S. Eastern Time)

For GIA office closures see School Calendar (pg. 12) or visit griggs.edu.

If you plan to enroll in person, please arrive at least two hours prior to closing time. Please call 269-471-6570 to schedule an appointment.
Mission and Vision Statement

**Mission Statement:** Griggs International Academy seeks to INSPIRE learning, TRANSFORM lives and SERVE the world through Seventh-day Adventist Christian education.

**Vision Statement:** Griggs International Academy serves students globally, providing accredited distance education infused with faith-based instruction.

We partner with parents, teachers and schools in the process of nurturing and coaching students toward a lifetime of academic learning and Christian living. Griggs is constantly in a growth pattern—making changes that will enhance the program and serve our students more effectively. A variety of programs enables us to serve student needs.

Thank you for choosing Griggs International Academy.
At GIA, your child’s education is our first priority. We understand that each child is a unique and special gift from God, and we have devised a number of options so you can use our services to create a program that meets your child’s individual needs. You may enroll in a single course up to a full program and begin at any time of the year with our open enrollment. The accredited plan includes both online and web-supported/paper-based options. It’s up to you!

**Online Instruction (Grades 6–12)**
Griggs offers online courses for Grades 6–12. Online courses provide students with an opportunity to get quick feedback on lessons, make use of internet resources to broaden the educational experience and communicate with teachers via email, video conferencing and messaging. Many courses include discussion-based assessments using video conferencing. Classes are vibrant and interactive to captivate and keep the student’s attention while enhancing learning.

**Paper-based Instruction (K–8 only)**
Paper-based courses utilize downloadable PDF instructional guides that are printed and submitted by scanning and using dropboxes or regular mail. If mailing, make a copy for your personal files. Paper submissions and tests can be lost in the mail—copies can be useful for review and backup. Griggs will not be held responsible for any work lost in the mail. Be sure to acquire a tracking number when mailing or sending submissions by USPS.

**Web Support**
All GIA courses, whether online or paper-based, have online student support services available through the GIA website to all enrolled students. There is no need to download software or access the service from a special computer. When students register, they are given an email address and access to Griggs Online where they can view their lessons, complete daily assignments, communicate with their teacher through email and messaging, view their grades, request exams, and receive announcements.

Teachers will assist students using videoconferencing for discussions and tutoring. Go to Zoom.us to get the free download.

**K–12 Services**
Parents and certified teachers of GIA serve as partners in the education of the student. This plan offers the following services:

- **Teaching** (answering questions, helping solve problems, tutoring, videoconference discussions)
- **Advising**, grading and recordkeeping
- **Grade 8 and high school diplomas**
- **Report cards and transcripts**
- **Verification of enrollment upon request**
- **Monthly tuition payment plans**
- **Students may enroll for an entire grade or for individual subjects**
Beliefs and Values

SEVENTH-DAY ADVENTISTS BELIEVE

- There is only one God—Father, Son and Holy Spirit—an eternal unity of the three Persons.
- Christ is the Eternal Son of God, through whom all things were created and the character of God is revealed. Christ offered Himself as a living sacrifice, died as our substitute on the cross, was resurrected and ascended to heaven where He is interceding for us. He will come a second time for His people.
- The Holy Spirit, in harmony with scripture, leads to all truth.
- The Bible, as the divinely inspired Word of God, reveals God’s will, sets standards for character, acts as the test of experience, reveals true doctrine, and records God’s acts in history.
- God provided Christ as the only means of salvation by grace to those who, by faith, accept Him as their personal Savior.
- The law of God is an expression of His love and will. We are justified by faith, but obedience to the law demonstrates our love for the Lord and concern for our fellow human beings.
- The wages of sin is death, but eternal life is a gift of God.
- The second coming of Christ will be literal, personal and worldwide. At the second coming the righteous will be resurrected and together with the living righteous will be caught up to meet the Lord in the air. Until the resurrection, the dead are in a state of total unconsciousness. The wicked will be destroyed and sin will arise no more.
- The church is the Body of Christ on earth since the resurrection. It is made up of those in whose hearts the living Christ, through the Holy Spirit, dwells, and who are committed to continuing His work on earth and exhibiting His life in their conduct.
- The Sabbath of the fourth commandment is a memorial of creation and a symbol of redemption in Christ. Its observance on the seventh day is a sign of our sanctification, a token of our allegiance to Christ, and a foretaste of our eternal future in God’s kingdom.

PHILOSOPHY

To accomplish our mission, Griggs International Academy is committed to these core values:

Excellence
We view each student as a special creation, endowed by God with individual talents and abilities that we encourage them to develop by providing a quality, academically rigorous Seventh-day Adventist Christian education at all levels.

Respect
We believe that it is our responsibility to uplift one another by demonstrating respect and consideration for all parents, students and faculty through learning that is student centered and redemptive while providing customer service that is friendly, helpful and efficient.

Integrity
We recognize that mutual trust rests upon a foundation of honesty and transparency. We are honest and straightforward in our dealings, both business and academic, and expect no less from our parents, students, faculty and administrators.

Community
We believe that a safe learning environment and an accepting community are important to effective learning, especially in distance education. We strive to create a learning community where all participants (parents, students, faculty and administrators) feel valued and understand that they are part of a team by providing opportunities for constructive interaction and sharing of experiences.

INSPIRE.
TRANSFORM.
SERVE.
**ADMISSIONS**

The Seventh-day Adventist Church, in all of its church schools, including Griggs International Academy, admits students of any race to all the rights, privileges, programs and activities generally accorded or made available to students at its schools, and makes no discrimination on the basis of race, color, ethnic background, country of origin, or gender in the administration of education policies, applications for admission, scholarship or loan programs, and extracurricular programs.

Submission of the application and enrollment forms gives consent to Griggs International Academy to:

- Process the personal information that is entered on the application and enrollment forms. It is understood that this data is collected for enrollment and academic purposes and will be stored no longer than necessary for legitimate business and academic purposes.
- Contact you by telephone, email, or other means with information relevant to the enrollment and/or academic process.

**Admission Policies**

- For Grades K–12 a copy of the student’s birth certificate is required at the time of enrollment.
- Kindergarten students must be at least 5 years of age at the time of enrollment. Parents are responsible for being informed of state laws where they reside.
- Grade 1 students must be 6 years of age at the time of enrollment.
- Students who enroll in four or more courses in Grades 2–12 must submit with their enrollment a current report card/transcript that indicates grade placement (Grades 2–8) or courses taken (Grades 9–12).
- If a report card or transcript is not available, one or more of the following will be required:
  - A letter indicating grade placement from an approved school on school letterhead and signed by the student’s teacher/principal or registrar.
  - Scores from standardized tests taken within the last 12 months and administered appropriately under third-party supervision.
  - Portfolio detailing homeschooling experience. Review fees apply.

- If these items are not available, students entering Grades 2–9 may be required to take a placement test for which there is a fee.

For more information on how to create the portfolio or to request the standardized test, please contact the elementary or high school advisor.

**Age Out Policy**

One of the advantages that homeschool/distance education provides, is that families can determine appropriate pacing of their child through the academic grade levels. It is in the best interest of most students, however, to be presented with curriculum that is developmentally appropriate for their age level. Applying students whose ages fall outside of the normal age range will be tested to determine grade placement and the appropriate nature of the Griggs curriculum.

**ATTENDANCE POLICY**

All courses are organized on a schedule of 180 teaching days and are structured according to a traditional school year. Students may adjust their schedule to suit circumstances such as illness, travel, mastery of material, learning style or need for remediation.

Attendance records for grades K–8 are mandatory for accreditation purposes. Receipt of attendance is required for grade report processing.

**COURSE COMPLETION POLICY**

All students must be enrolled for at least six (6) weeks and complete their coursework within 12 months from the date of enrollment in order to move to the next grade level (K–8) or to receive credit (9–12). Students attending an APLE school or in the A-PASS program should refer to that program’s guidelines. Students in high school Credit Recovery courses will have 12 weeks to complete the coursework.
Academic Policies

Griggs understands that there are certain circumstances in which students (not enrolled in Credit Recovery courses) are not able to complete their coursework within the one-year timeframe. In order to avoid penalties, a student must request an extension in writing to the registrar (registrargia@andrews.edu) to be reviewed by the K–12 Curriculum and Standards Committee to be considered on an individual basis (see miscellaneous fees table for extension fees). Students who have not made deadline extension arrangements will lose access to their coursework six (6) weeks after the deadline date. At this point it will be determined if the student should complete the course or cancel and re-enroll, and may be subject to deadline extension fees and/or cancellation fees.

If a course is not completed and an extension is not requested, the course will be finalized with a letter grade of W (withdrawn) after 18 months from date of enrollment.

MATERIALS AND SERVICES

Instructional guides (paper-only)
The elementary instructional guide acts as a teacher’s manual, providing directions for the use of the assigned textbooks and additional instruction.

It furnishes daily lesson plans, suggests teaching methods and activities, provides answer keys for daily assignments, and offers other information needed to guide students through their courses.

GIA recognizes that parents and students may have questions or problems that might not be answered by the instructional guide or the textbook. We encourage students or parents to contact the assigned course teacher.

Students, with parental supervision, are encouraged to create and maintain a regular study schedule. Interaction between GIA faculty and students is key for both paper-based and online course delivery modes.

Special Needs & Accommodations
We are committed to providing a great learning experience to our students. We strive to make appropriate accommodations for documented learning challenges. Please contact Student Services if accommodations are needed, and be prepared to provide any appropriate documentation.

GRIGGS ONLINE BOOKSTORE
Full descriptions of each required and optional course material for each GIA course are available through the Griggs online bookstore at griggs.edu.

The Griggs online bookstore provides competitive pricing on used, new and digital textbooks, as well as book rental and buyback services. If you choose to purchase elsewhere, please pay close attention to the ISBN, year of publication and edition details for each textbook. International versions differ greatly, and used textbooks through other suppliers are not always accurately listed.

REQUIREMENTS FOR ONLINE COURSES

Student needs access to a computer with:
- High-speed uninterrupted internet access
- Software: Adobe Acrobat Reader, word processor (e.g. MS Word), current browser version with JavaScript and Cookies enabled, Adobe Flash Player 10.1 or greater
- Hardware: 2GB+ RAM, 1.6Ghz+ processor, 10GB hard drive space, 1024 × 768 or higher screen resolution, audio speakers, webcam and microphone (headset highly recommended), access to a scanner is strongly suggested
- Operating system: PC Windows 8 or newer; MAC OSX or newer
- Supported browsers are the latest or most recent browser versions: Mozilla Firefox, Google Chrome, Microsoft Edge or Apple Safari
- Tablet and mobile support most recent versions of: Android, Apple or Microsoft Surface
- Use of Chromebooks is not endorsed due to low performance capacity of some Chromebooks. Many are not able to support Griggs Online.

Transfer of Credit
Credits for distance education courses may be transferred to other educational institutions. However, students should realize that decisions on acceptability of credit rest with the receiving institution. It is always a good idea for
K–12 GRADING SYSTEM & REPORTING

Once a student completes a class the final grade is recorded using the grading scale below. All grades are final and will not be changed without teacher permission and Curriculum and Standards Committee action. Grades from retaken courses will not replace the previous course grade on the transcript; however, the highest score will replace the effect on the GPA. Incomplete courses will receive a W grade six (6) months past the deadline.

K–12 grades can be viewed for each course, both online and paper-based, when logged in to Griggs Online.

Griggs Honor Roll System
Griggs celebrates the achievements of all students. However, the College Preparatory diploma candidates who accomplish the following criteria will receive special recognition upon completion:

- GPA 3.50–3.79 = Burgundy cords
- GPA 3.80–3.99 = Gold cords
- GPA 4.0 = Gold cords & Medallion
- GPA 4.0 and attended Griggs Jr. & Sr. years = Griggs Scholar Certificate, Medallion and Gold cords
Grade Report/Transcript Requests
Upon completion of a course the student, parents of a minor or a school may request a grade report/transcript. Transcripts can be requested by going to the website griggs.edu and select “Academic” then “Transcript Request.” See miscellaneous fees for high school transcript cost.

K–5 report cards will be issued at course completion and receipt of attendance records. Grades 6–8 report cards can be requested through the K–8 director. High school transcripts can be requested via website at griggs.edu and selecting “Transcript Request.” See Miscellaneous Fees for high school transcript cost.

Student Privacy
Student information and records at Griggs International Academy are protected by a Federal privacy law known as the Family Educational Rights and Privacy Act (FERPA). Except under limited exceptions specified in FERPA, school officials can only share student education records or discuss information from these records with third parties when “prior written consent” has been established. Parents or others who do not have guardian rights to underage students do not have access to student records without the parent/guardian’s signed consent. Students who are 18 or older can maintain their privacy or must sign consent for someone (a parent/guardian) to have access to their records. There is a FERPA Consent to Release Form on the Griggs website (griggs.edu) that must be used if there should be someone other than a parent/guardian who can have access to a student’s GIA academic information. Only after this signed form has been received can GIA release specified records or information to the designated individual/s. FERPA consent may be revoked at any time by providing written notice of such revocation to the GIA office. The revocation will apply only to prospective requests for records.
ACHIEVEMENT TESTS

Stanford10 Achievement Test
The Stanford10 Achievement test can be used as a helpful tool to measure the progress of a student, as a means of assessing national comparisons for accreditation purposes, as well as aiding in effective grade placement of students. Scores from standardized tests taken within a year of enrollment from a third party testing facility will be accepted. The following students are required to take the Stanford10 test upon full-time enrollment (four or more courses):

- New students (4th grade and up)
- Returning students entering grades 5, 7, 9, and 11

There is no cost for required achievement testing. Testing is to be completed within six weeks of enrollment with GIA to avoid loss of access to coursework. Paperwork should be turned in at the time of enrollment. Send inquiries to examgriggs@andrews.edu. Other Stanford10 placement testing opportunities are available upon request for a fee (see Miscellaneous Fees).

ACT/SAT
All directly enrolled College-Prep diploma seeking students are required to submit ACT or SAT scores to the high school advisor at griggsadvisor@andrews.edu prior to receiving their diploma. This exam needs to be taken at a local approved testing site. Go to www.collegeboard.org for more information and testing sites. Griggs’ school code is 210 948.

ACADEMIC INTEGRITY POLICY

Griggs works hard to provide its students with the best education possible, and maintains that students should hold themselves to a high level of accountability and self-government. In doing so, students will:

- Take responsibility to protect academic integrity in their own work by avoiding the practice of plagiarism, the use of another’s work in place of their own.
- Avoid both dishonest practices and the appearance of dishonesty.

- Make the necessary effort to ensure that others do not use their work.
- Be prepared to offer verification of work and demonstrate abilities in a monitored setting.

Academic Dishonesty
Academic dishonesty comes in many shapes and forms such as, but not limited to, the following:

1. Cheating: Intentionally using or attempting to use unauthorized materials, information or study aids in any academic activity. Examples of cheating may include, but are not limited to:
   - Sharing answers or collaborating with another student on any academic activity unless specifically authorized by the instructor
   - Possessing unauthorized notes, study sheets or other materials during an examination or other academic activity
   - Obtaining or attempting to obtain an assignment or answer key
   - Submitting substantial portions of the same work for credit in more than one course without the knowledge and approval of all instructors involved

2. Plagiarism: Intentionally representing the words or ideas of another as one’s own in any academic activity. Examples of plagiarism may include, but are not limited to:
   - Copying from another source without quotation marks and appropriate citation
   - Paraphrasing words, ideas or sequence of ideas, from another source without appropriate citation
   - Using material from the internet or other online service without proper citation
   - Buying or using the whole or any part of a paper from a current or graduated student, research or term paper service, or any other source not representing your own efforts
3. **Fabrication**: Intentional falsification or invention of any information or citation in an academic activity. Examples of fabrication include, but are not limited to:
   - Changing or attempting to change academic records without proper authority
   - Altering documents after signatures have been obtained
   - Forging of signatures on any document
   - Obtaining unauthorized files or accounts

**Facilitating academic dishonesty**: Intentionally helping or attempting to help another to violate any provision of this policy.

**Inaccurate information**: Provision of inaccurate information, misleading information or omission of information on a GIA application shall constitute a violation of the Academic Integrity Policy.

**Other**: Any other instance that undermines or has the potential to undermine academic integrity, such as cyberbullying (see GIA Online Services Agreement).

**Process and Consequences**: Upon instructor suspicion of academic dishonesty, the instructor shall, within ten (10) days after discovery, hold an informal discussion with the student about the incident, try to reach resolution and, if appropriate, recommend a consequence to the student. This meeting should be promptly documented with an email from the instructor to the student with a copy to the principal. Consequences may include:
   - Reduction in or failing assignment grade
   - Reduction in course grade
   - Academic monitoring or probation
   - Academic dismissal from school

**Academic Monitoring/Probation Policy**
Students may be placed on academic monitoring status based on current or previous academic performance. This may be due to grades, rate of course completion or academic integrity issues. Students who do not make satisfactory progress during an academic monitoring period, may be placed on academic probation at the discretion of the K–12 committee. Academic probation is to include a performance contract appropriate to the circumstances and signed by the student, parent/guardian and a representative of the K–12 Committee.

**Academic Grievance Procedures**:
1. If a student elects to appeal an instructor’s decision on academic matters, they should email their grievance to the instructor.
2. If the grievance is not satisfactorily resolved with the instructor, the student shall email the principal's office and request consideration for his or her case within 10 days of emailing instructor. The principal will present the case to the K12 Curriculum and Standards Committee.
3. The K–12 Curriculum and Standards Committee shall promptly investigate the facts of the situation and hear formally from the student and the instructor via teleconference, written testimony or physical presence. If the committee agrees with the fact-findings of the teacher, it will affirm the original decision. If the committee disagrees, in whole or in part, with the fact-findings, the committee will collaborate with the instructor and student to find a resolution.
4. Until a final decision has been reached, the student shall remain an active member of the class. In the event the student elects to drop or withdraw from the course, the alleged act of academic dishonesty will be pursued to its conclusion and any final consequence shall be unaffected by dropping or withdrawing from the course.

**Ways to avoid academic dishonesty**
- Always cite the author and source if the idea did not originate with you
- Do not copy and paste
- When you take the main points from a source (spoken or written), cite the author and source
- Cite the author and source even when paraphrasing
- Use quotation marks when including the exact wording of an article, then cite the author and source
- In fact, the ONLY time you do not cite the author and source is when the idea originated with you! Otherwise, cite the author and source
- Direct citations should be limited
Learn proper citing guidelines. GIA uses MLA formatting in the coursework. Students may access bibliography generator websites such as the following to help with the formatting:

https://owl.english.purdue.edu/owl/resource/747/02/
http://www.bibme.org/citation-guide/mla/

And finally, if in doubt, ask. Your teacher is your greatest resource. They can answer questions, provide recommendations for resources and help as you strive to maintain your academic integrity.

**Academic Appeal of Final Grade**

Parents/legal guardians must submit, in writing, appeals for reconsideration of a final grade to the GIA registrar within four (4) months following the date of completion shown on the grade report/transcript. Teachers are permitted to notify the registrar to change a grade if there was an error in recording or calculation.

**ONLINE USE POLICY**

In order to create a warm, safe environment for our students to learn appropriate internet usage while keeping in mind the risks, GIA has adopted Digital Media Guidelines. We define Digital Media as any online tools and services that allow any internet user to create and publish content such as Facebook, Snapchat, Instagram, Twitter, Flickr and YouTube, to name a few.

To ensure understanding of standards of behavior and usage from a Christian worldview, GIA students and parents agree to abide by the following guidelines:

- Regardless of your privacy settings, assume that all of the information you have shared on your social network is public information. Post images and thoughts with care. Remember your digital footprint is a permanently accessible record of your digital life.
- Be confidential, protecting private and personal information. To ensure your safety, be careful about the type and amount of personal information you provide. Do not publish, post or release information that is considered confidential or private. Keep in mind that online “conversations” are never private. Use caution if asked to share your birth date, address and cell phone number on any website.
- Never agree to meet face-to-face with someone you meet online without your parent’s approval.
- Do not post details (exact time and exact locations) of travel itineraries. Post about the day’s activities after the fact and avoid saying what you “will be” doing the next day.
- Character is shown through writing. Sending harassing, obscene and/or other threatening email to another user is prohibited. Be courteous, respectful and considerate of others
- Share and interact in ways that will enhance your reputation, the reputation of others and the reputation of the school, rather than damage them.
- Be a good listener and be responsive to others when conversing online. Provide answers, thank people for their comments, and sign all emails.
- A significant part of the interaction on blogs, Facebook, Instagram, Twitter and other social networks involves passing on interesting content or sharing links to helpful resources; however, never blindly repost a link without first reviewing the content.
- And if you do not get it right, correct any mistake you make immediately, and make it clear what you’ve done to correct the mistake.
- Apologize for any mistakes if the situation warrants it. If it’s a major mistake (e.g., exposing private or confidential information) please let your principal/teacher and parent know immediately so the school can take proper steps to help minimize possible negative impact.
- Sending unsolicited junk mail, “for profit” messages or chain letters is not permitted.
- Refrain from attempting to harm or destroy the data of another user, including uploading or creating computer viruses.
- Do not allow others access to your course.

Any violation may result in dismissal from an online course and/or other disciplinary actions.
Cyberbullying Policy
Cyberbullying is not tolerated. It includes, but is not limited to, the following misuses of technology: harassing, teasing, intimidating, threatening or terrorizing another student or staff member by way of any technological tool, such as sending or posting inappropriate or derogatory email messages, instant messages, text messages, digital pictures or images, or website postings which have the effect of:
- Physically, emotionally or mentally harming a student
- Placing a student in reasonable fear of physical, emotional or mental harm
- Placing a student in reasonable fear of damage to or loss of personal property, or
- Creating an intimidating or hostile environment that substantially interferes with a student’s educational opportunities.

All forms of bullying are unacceptable. Offenders shall be subject to appropriate staff intervention, which may result in administrative discipline.

Parent/Guardian Responsibility
- Make certain both you and your student understand and complete the Online Services Agreement found in the Content or Assessments/Quizzes areas of each course. The policy must be reviewed by both parent and student, signed by student before advancing to the Introduction and must be completed for each semester of the course. The Online Services Agreement rules apply to all use of Griggs Online for communication, whether a student is taking an online course or using the student services available.
- Help your student abide by the Online Services Agreement by actively monitoring how they interact with classmates while using Griggs Online.
- Promptly discuss any behavior that violates the Online Services Agreement and Cyberbullying Policies. Set consequences and continue to monitor online activity.
- Report concerns if your child experiences cyberbullying to the GIA principal.

- = Offices closed
Financial Information

GIA FINANCIAL INFORMATION 2019–2020

Students who enroll in GIA’s courses enjoy full educational services with GIA’s qualified educational team. Lessons and exams are graded by certified teachers who interact with students while parents serve as learning coaches in the home learning environment. Academic records are kept with grade reports, transcripts and supporting services.

Required textbooks may be purchased through GIA’s online bookstore at griggs.edu.

TUITION AND FEES

The following tuition rates apply to accredited services for the period July 1, 2019 through June 30, 2020. GIA reserves the right to change tuition rates and policies without notice. Tuition may be refunded per refund policy.

Tuition and fees must be paid in U.S. dollars only. Fees are to be paid in full as services are provided. Enrollment fees are non-refundable and cannot be included in a payment schedule. A full list of fees follows and is available at griggs.edu.

### PAYMENT METHODS

Tuition may be paid in full at time of enrollment or by installments. Payments on account, as well as any miscellaneous fees, may be paid in cash (paid in person), credit, debit, checks or money orders payable to Andrews University.

**Pay by Phone**
You may call 269-471-3326 to make payments by credit or debit card. Be ready to give the student number, student name, and indicate you are paying on a Griggs International Academy account.

**Mail Checks** *(Include student name and ID)*
Office of Student Financial Services
Andrews University
4150 Administration Drive
Berrien Springs MI 49104-0750, USA

We reserve the right to verify availability of funds for any check received. A fee of $35 will be charged for any check returned by the bank. All services, including access to the online system, may be suspended until the account is made current or paid off by credit card or money order.

**Third-Party Billing**
Andrews University is able to bill organizations offering educational subsidies to their employees, in accordance with the policy of the employing organization. Authorization from the organization’s financial officer must accompany the registration. Payment in full is due within 30 days from billing. The monthly payment plan is not available to organizations.

If the sponsoring organization requires proof of completion or other evidence of enrollment, it is the student or parent/guardian’s responsibility to pay and claim the subsidy once they complete the course.

Payment of a student’s account is the sole responsibility of the student or parent/guardian if student is under the age of 18. When an Adventist school has a contract for services with GIA, the school is responsible for their contract.
Refund of Small Balance
Families using USA bank accounts, any credit balance less than $5 will not be refunded unless specifically requested. Families with non-USA bank accounts, any credit balance will only be refunded through a valid credit card. International students who use Flywire (flywire.com) or pay by credit card will be refunded through the same method. Refunds will be made to the original payee, unless the original payee instructs Student Financial Services otherwise.

PAYMENT PLAN POLICY

Monthly Tuition Payment Plan
Tuition may be paid on a monthly plan. Automated payment plans are not available. The monthly payment plan is not available to sponsoring organizations. Fees cannot be included in the monthly payment plan, and are nonrefundable.

Credit Approval
The monthly payment plan is subject to prior credit approval, which may be based on information obtained from a credit reporting agency. Andrews University reserves the right to deny credit on the basis of one’s credit history.

Monthly Tuition Payment Plan Agreement
The person responsible for the student’s finances must be 18 years of age or older. By completing and signing the agreement on the Course Payment Form, the financier and the student (if older than 18) agree to abide by the stated terms. The amount financed cannot exceed the amount due for tuition. In case of an error or miscalculation, GIA reserves the right to adjust without notice the amount financed, provided the amount in question does not exceed $100.

Monthly Payments Applied to Multiple Courses
When enrolled in multiple courses, the monthly payment amount is automatically applied proportionately to each course being financed. To complete a course ahead of its payment schedule (number of months chosen for the payment plan), the course must be paid in advance of requesting the final exam, and the account as a whole must be current. If a final exam is needed right away, payment must be made by credit card or money order.

Finance Charge Disclosure
Annual Percentage Rate (APR) is 0%.

Maximum Number of Payments
Up to eight monthly payments of no less than $25 may be made on any enrollment.
Payment Due Date
If an enrollment is made before the 15th day of the month, the initial tuition payment is due on the first day of the next month. If an enrollment is made on or after the 15th day of the month, initial tuition payment will be due on the first day of the second month following the enrollment month. Thereafter, all payments are due on the first of each month. Exams, grades, report cards and transcripts are held if payment is not received by the 10th of the month. If payment is not received by the due date, the account becomes past due, and exams will not be issued.

Delinquent/Written Off Accounts
Accounts that are 30 days or more past due will be considered delinquent. When an account is delinquent, all services, including access to Griggs Online, will be suspended until the account is made current or paid off. GIA or its assignee may, without notice (unless such notice is required by law), require immediate payment in full of the remaining balance. A late payment fee of $20 per month will be charged until the account is made current, paid off or written off for nonpayment. Accounts brought current may take up to two (2) business days to gain course access.

Delinquent accounts will be written off 45 days prior to deadline if no payment has been received. Accounts that have been written off must be paid in full before accessing current enrollment or processing new enrollments. GIA may report delinquent accounts to a credit bureau. All costs of collection will be added to delinquent accounts.

Services Suspended
Items held for accounts in which services have been suspended, whether because of finances or academics, will not be processed until the hold has been removed. This includes period tests, submissions, exam requests, exams, grade reports, transcripts, etc. After the last day for withdrawal, the course will be closed and a grade of W given.
TUITION REFUND POLICY

The tuition refund policy for GIA is summarized as follows:
- A full tuition refund will be granted up to 21 days after enrollment date
- Refunds will be made to original payee, unless the original payee instructs GIA otherwise, in writing
- Day 22 through the end of 7 months: students are eligible for refunds upon request
- Refund is granted based on whichever is higher: months enrolled or percentage of coursework completed. After the withdrawal fee is deducted, a refund of tuition will be made according to the following schedule:

<table>

</table>

No refunds after 7 months and/or 51% of coursework is completed
CANCELLATION, WITHDRAWAL AND COURSE CHANGES

Cancellation occurs when a student terminates a course of study before beginning it. A full tuition refund is given for cancellations within 21 calendar days of the enrollment approval date. Cancellation fees apply after 21 days. Enrollment and miscellaneous fees are non-refundable.

Withdrawal occurs when a student terminates or drops a course of study after GIA begins providing educational services. A withdrawal fee will be charged if withdrawing after 21 days of enrollment.

Changes involving withdrawing from one course and enrolling in another can be requested for courses where less than 20% of the work has been completed. Changes may be requested within two months of the date of enrollment. Change fees apply.

Cancellation/Withdrawal/Change Procedures
- Email enrollgia@andrews.edu with any enrollment changes. Include the specific course number and name, student number and full name, and any instructions on returning a refund (if any).
- Email fingia@andrews.edu if withdrawing or cancelling courses without adding others. Student Financial Services will email confirmation of your withdrawal and the amount of any refund due.

Security Interest on Refunds
GIA holds a security interest in any refund that may be due from GIA if there is an outstanding account. Any monies sent to GIA will first be applied to past due amounts.
NOTE FROM LA RONDA FORSEY, PRINCIPAL

Welcome to Griggs International Academy! We are happy to help you accomplish your academic goals. Griggs is an accredited school serving K-12 learners around the globe. We offer a variety of services that include parent-guided curriculum, online learning, and on-site solutions for NAD and international schools.

Griggs has been serving students around the world for over 100 years. Throughout the history of Griggs, there is constant change to meet the needs of students. As you look through this catalog/handbook, you will see that we have a wide variety of programs to fit different needs.

Griggs offers elementary curriculum (K-5), junior high school (6-8) parent-guided/online courses, and high school (9-12) online courses. The online students connect directly to the certified course teacher.

Since we are owned and operated by Andrews University (AU), we have valuable resources that enrich our program. One example is that AU provides an online option for qualifying students to take university courses while finishing high school. This is a great opportunity for those students that want to get ahead.

This is an exciting time to be a part of Griggs. We want to bring distance education closer to you. It is our goal for you to have personalized support as you move forward in your education with Griggs. It is important for students and parents to have the ability to contact the school principal, so phone calls, texts, and email are encouraged. We value building relationships with our students, so don't hesitate to call, ask for a meeting, or send a quick note.
Wendy Baldwin
Phone: 269-471-6549
Email: griggsk-8@andrews.edu

Mrs. Baldwin has a Bachelor of Science in Elementary Education with minors in science and reading. She earned a master’s in education. She is passionate about Adventist education, and has served in Adventist schools in grades K–10 and administration.

She enjoys reading and spending time in nature, but her first love has always been leading students to a closer relationship with Christ. Join us in welcoming her to the Griggs International Academy family!
The chart to the right provides an overview of GIA elementary curriculum. Core curriculum is required; enriched curriculum is recommended for holistic Christian education.

**Core Curriculum**
A full-time student with GIA must take and pass the core courses to be promoted to the next grade. Each course has two semesters.

**Interchangeable Courses**
If you have students in more than one grade or if you wish to follow the scheduling of a local school, you may treat the following as interchangeable:

**Grades 1 and 2: Bible, Health/Science and Social Studies**

**Grades 3 and 4: Bible, Health/Science and Social Studies**

Please make a notation on Forms 2 and 3 of the enrollment packet of any needed substitutions.

*Some states require art, music and physical education. Check with your local school district for the requirements in your area.*

</table>
Students that successfully complete all core classes will receive an 8th grade diploma and a complete transcript upon request.

Core Curriculum: A full-time student with GIA must take and pass the core courses to be promoted to the next grade. Each course has two semesters. Additional enriched curriculum courses are recommended for a holistic Christian education.

*Only one year of Keyboarding is required during the 7th or 8th grade year. The course may be taken more than once to maintain and improve skills.

### Algebra I for 8th Grade Math
Eligible 8th graders can take Algebra I and receive dual credit. Students must meet the following requirements:
- must be a full-time Griggs student
- must have at least an 85% standardized test score in Math
- must have earned a letter grade "A" in 7th Grade Math
- must have a letter of recommendation from 7th Grade Math teacher (if not previously enrolled with Griggs)

</table>
EDUCATIONAL PARTNERSHIP

Griggs International Academy serves students in the capacity of principal and supervisory teacher. Parents act as direct daily supervisors and learning coaches to their students enrolled as GIA students. GIA’s teachers provide advice and guidance. The role of the parent as learning coach includes:

- Scheduling and daily supervision of student’s coursework
- Encouraging and providing positive feedback
- Reviewing daily progress to meet deadlines
- Answering questions
- Keeping the student on task

ELEMENTARY SCHOOL
GRADE PLACEMENT

Students are placed in grades K–1 based on attaining a specific age (Kindergarten=age 5, Grade 1=age 6). There are strengths and weaknesses to altering the rate of progress that should be carefully considered in planning how to complete a grade level.

It is critical that parents promote a clear understanding of basic concepts and facilitate focused learning in an area organized with materials and resources.

Home schooling allows for individual enrichment when the student needs additional challenge or a slower pace.

THE STUDY SPACE

Decide on a specific place for school away from distractions. This space should be created to promote focused learning and could include the following useful educational tools:

- A marker board
- An area where the student’s work can be displayed
- A desk or table with a chair the correct size
- School and craft supplies
- Resource books such as a Bible, dictionary and textbooks

INSTRUCTIONAL GUIDE

Instructional Guide is the term used for the packet of instructions for each course. It provides all the information that is needed to teach the course. Used with the textbook, the instructional guide makes preparation and teaching easier. The Instructional Guide is divided into sections. The Instructional Guides are very clear about what should be submitted to GIA and when to submit these items.

Online Courses include instructions in the content icon on the course home page on Griggs Online. Use the username and password, emailed to you at the time of enrollment, to access Griggs Online (d2L.griggs.edu).

Most courses have five (5) lessons that span a week and provide one (1) lesson per day. Each lesson includes the objectives, vocabulary, materials needed, a warm-up or review, a discussion topic, an assignment, and an answer key for the assignment.

It is essential that parent-teachers regularly consult the Instructional Guide for each paper course, and review instructions in online courses with their student. Parents are responsible for setting the pace, facilitating and monitoring student progress and success.

HOW TO ACCESS INSTRUCTIONAL GUIDES

Instructional Guides can be downloaded using the student login for Griggs Online (d2L.griggs.edu). Committed to stewardship of our environment, we invite you to file these digitally, and print only as needed. Files can be used on an iPad or other digital device of your preference. You will need to print pages students write on, and of course you may print the entire guide if you prefer.

PLANNING

Follow a plan of instruction in order to teach effectively. No one—not even experienced teachers—can teach successfully without careful planning. Good planning includes four phases:
1. Yearly Planning
This involves looking at the big picture of what will be accomplished this year.
- Scanning through all the materials you will use will give you an overview for the content and possible resources for the course.
- Examine the textbooks, workbooks and instructional guides. Locate reference helps such as glossaries, indexes, dictionaries or other teaching devices. Be sure you have all the books needed. If not, contact GIA at once.
- Read the preview/overview of each subject. (You will find this at the beginning of each instructional guide.)

ASK: What will your student study? What are the broad goals for the year?

2. Grading Period Planning
- Short-term planning calls for a review of the work to be accomplished within a six-week or nine-week period. Do this planning at least a week before you end each period.
- Study the introduction found on the first page of each period.
- Review the suggested daily lesson plans. Establish deadline dates for major assignments/exams. Note any special themes. Think about school supply resources, places of interest for field trips, arrangements for away-from-home activities, and so forth. Research the special events for which you may have to make arrangements in advance.

3. Weekly Planning
Carefully plan and organize to ensure success. Writing out a weekly schedule for each subject is recommended.
- Make a note of and acquire needed supplies or reference materials.
- Briefly review the textbook and workbook assignments to be sure you understand what is required of you AND the student.
- Be prepared to answer questions your student might have about any assignment during the week.

4. Daily Planning
Students will usually be able to complete a lesson in each subject each day. (Some exceptions are art, music and physical education.) Plan time for GIA teachers to receive and grade tests.

SCHOOL DAY
Children learn best with a balance of predictability and novelty. Planning a routine at the beginning of your school day can help your student feel prepared for their school day to begin. These are some ideas for opening exercises:
- Sing favorite songs/seasonal songs/religious songs/national anthem
- Read a special book to the student
- Read Scripture, pray together, or plan a family worship
- Share nature thoughts
- Do physical exercise and get some fresh air to enhance brain function

SCHOOL CALENDAR
Planning and organizing is the key to success. Establish a routine of study, although the calendar is adaptable to your circumstances.

Build a school calendar:
- Review the introductions and table of contents for each course
- Yearly plan schedule:
  Classes with six periods = 30 days per period
  Classes with four periods = 45 days per period
- Establish deadlines for major assignments/exams
- Refer to the GIA calendar for holiday office closures

Grades 6–8 should plan dates for taking exams. Follow these dates faithfully.

SCHEDULE
Every student needs a study environment that is free from distractions and interruptions. The morning hours are best for learning, but work out a schedule that is most beneficial to your circumstances. The following chart outlines the approximate daily time requirements per grade. Students should be encouraged to work at a steady pace, and time for completion may vary.
Students in Grades 5–8 will require additional independent study time to review homework.

Parents need to be available to answer questions and help the student keep on task even when not directly teaching during school hours.

ASSIGNMENTS/PRACTICE WORK

Please DO NOT send the daily assignments to GIA. Grade the assignments and keep the work. Answers to the daily assignments are in the instructional guides except for Bible (Grades 1–4). However, if there is a question or a need to ask the advice of a GIA teacher, send samples of the work in question along with a note to the teacher. Daily work samples should become part of the student’s portfolio.

Most students work on every subject every day. However, some parents/tutors prefer teaching all of health/science in one semester and all of social studies in the other semester.

Some courses have worksheets to be used as an assignment, some have special assignments and additional instruction, while others may include projects. Carefully read the introduction for each course before beginning.

- Parents/tutors should work through any practice with the student. This is VITAL to mastering the concepts.
- The student should complete the assignment without looking at the answers, but may use the textbook as needed.
- Parents/tutors should go over papers together with their student after grading the daily assignments. Students learn best from mistakes when immediate, positive feedback is received.

Display work so others can enjoy it! This can be a form of reward and a source of encouragement.

Parents/tutors may work through each assignment with the student in the beginning. Students should work towards age-appropriate independence. Do not give answer keys to the students.

Written assignments need to be legible and dark enough to scan well. Students of all ages need to write their own work as much as possible.

If there are any questions or you feel the need to ask the advice of a GIA teacher, email samples of the work in question along with a note or feel free to call.

SENDING IN WORK

1. Each course has a unique set of assignments required to submit to Griggs. For many courses it is just the period tests, but other courses require reports or other activities. Please take note of which work needs to be submitted to Griggs for each course.
   - Write student name and ID on EACH page.
   - Send tests at the end of each period.
   - Evaluations with feedback provide areas to focus on and improve throughout the next period.
2. Paper tests/submissions may be submitted in dropboxes in Griggs Online:
   - Scanned copies of tests and submissions should be uploaded directly to dropboxes in the ‘Assessments’ menu on the homepage for the course. Directions for uploading can be found on page 28 of this catalog as well as in Griggs Online tutorials.
   - If necessary, copies of tests and submissions can also be mailed to Griggs. Please remember to:
     - Always make a copy of the submissions.
     - Always send with a tracking number.
3. Please submit each period as it is completed. Submissions will be graded allowing the student to benefit from a teacher’s feedback throughout the year.

HOW TO UPLOAD TO A COURSE DROPBOX

1. Before uploading, prepare the file:
   - Scan each period test as a single document, not individual pages.
   - Include your student name and assignment/submission number in the file name.
   - If the scan is not in .pdf format, convert it, using freepdfconvert.com or other free online software.
2. Login to Griggs Online at d2l.griggs.edu.
3. On the course’s navigation bar, click on Assessments and choose Dropbox from the dropdown menu.
4. Select the number of the submission that you are ready to upload.
5. Click the ADD A FILE button.
6. In the pop-up window, click the UPLOAD button and locate the submission file on your computer. Do NOT upload another course submission here as it will be lost in the wrong folder.
7. Click the OPEN button.
8. Select the ADD button.
9. Click SUBMIT. An email will be sent confirming that the upload was successful and you can see the file when you click on the submission folder again.

Note: Please send submission as PDF or Word file, NOT a picture file as that format makes scoring particularly difficult.

SCANNING TIP

If the scanner copies individual pages, follow these steps:
1. Go to http://pdfmerge.com/
2. Click Browse several times, each time adding the next page from where you saved them on your computer.
3. Click Merge. Then, save the file on your computer.
4. Upload to Dropbox as described above.

HOW TO VIEW GRADED WORK IN COURSE DROPBOXES

1. Login to Griggs Online and select the course to view.
2. On the course’s navigation bar, click on Assessments and choose Dropbox from the dropdown menu.
3. Click on VIEW in the Feedback column to the right of a submission with a score.
4. On the VIEW FEEDBACK screen, there may be one or more types of feedback:
   - GIA teachers write comments in the Dropbox Feedback space.
   - If the GIA teacher marked on the submission pages, you will see Attached Files. Click to open and view more comments.
   - Some GIA teachers will record a voice message. Be sure to have the speakers turned on when you click to listen to the audio feedback.
5. If a grade is posted with no feedback or you have questions about a particular assignment, you can
email or call the GIA teacher directly. Phone numbers are provided in the instructor introduction on the course Griggs Online homepage. To email the instructor within Griggs Online, go to Classlist, and click on the instructor's name. Students can NOT send an email to an outside email address from Griggs Online. Remember: Griggs online email to Griggs Online email; outside email address to outside email address—don’t try to mix the two.

**IMPORTANT NOTE:**
Keep your account up-to-date so services can be rendered. If you finish ahead of your payment plan, remember that transcripts can only be issued once the account is paid in full.

**ADMINISTERING TESTS**

The purpose of testing in grades K–8 is to enable the GIA teacher to see strengths and weaknesses so that appropriate guidance can be given. Online courses available to Grades 6 through 8 students may include assignments or projects as well as tests that are graded by GIA teachers.

**Taking Tests**

Give tests at the end of each chapter. Parents of Grades 6–8 students must request exam passwords from the K–8 director. Save the chapter tests until the period is completed. Then submit them to GIA as instructed.

At the end of most tests is a signature box. Sign your name if the student did the test without help. If the student had help, write a note of explanation.

**Remember:**
- All exams MUST be proctored by an adult.
- “Coaching” a student on test answers is not allowed. The proctor/parent may read the question to the student, ask the student to check their work, or point out an area that the student left blank. A proctor may also clarify test directions.
- Textbooks, workbooks or other reference materials may not be used.
- Do not give all the tests on the same day. The test may not give an accurate picture of what has been learned if the student becomes overly tired.

**Special Testing Considerations for Grades 1 and 2:**
- Most students should be able to write answers by the second period of Grade 1.
- Parent’s comments are welcomed, but should be enclosed in parentheses. ( )
- Watch for special test instructions located at the beginning of a test.

**HOW TESTS ARE RETURNED**

Students will receive their tests and feedback through the dropbox system in Griggs Online. Please retain copies of student tests for your records.

**REPORTS**

Progress reports are sent as an evaluation to Kindergarten through Grade 5 students. Report cards, which are the final grades, are issued when all tests/submissions for the semester/year are completed. Students need to request a report card. The notice of grade completion form is located on the home page of Griggs Online. Students will receive teacher feedback on each test/submission on Griggs Online as described above.

**CONTINUE TO REVIEW STUDENT MATERIAL**

The student will work hard to learn new facts, skills and concepts this year. Review/reinforce the material often to be sure learning is retained.

Suggestions for maximizing retention are provided in the lesson plans located in the instructional guides.

Review material from previous lessons prior to beginning each class. Remember to include dates, people and major concepts. End of chapter and unit reviews can provide valu-
able review. In Science and Social Studies students need to know all bold words and answers to end-of-section questions.

As the parent/tutor, you will determine how much review, repetition and supplemental work the student needs daily. All coursework needs to be completed by the given deadline date which is one year from the date of enrollment. Six (6) weeks after the deadline students will lose access to their coursework and an extension will need to be applied for and the extension fee paid.

REQUIRED ATTENDANCE

Keep an accurate record of school attendance:
- An attendance form is available on Griggs Online.
- Record the date and number of hours that school was in session each day, even if it was a partial day.
  NOTE: Students in Grades K–4 need to have a minimum of four hours of schooling daily (five days a week).
  Students in Grades 5–8 need a minimum of six hours.
- Keep one copy and mail one copy to Griggs International Academy with the tests for each period.
- We love to hear about your field trips! Give us a brief description in the comments section of your attendance report.
- Attendance must be submitted for report cards to be released.
- Your local public school district may require a copy of the attendance report.
- Attendance will be printed on each final report card.

How to send in school attendance reports:
- Fill in the information for each period on the attendance form. See the sample attendance form below. Write legibly on the attendance forms that are included.
- Please mail/email attendance reports at the end of each period.
  - Mail: Griggs International Academy
    Attn: Elementary Department
    8903 U.S. Highway 31
    Berrien Springs MI 49104-1950 U.S.A.
  - Email: giak6submit@gmail.com
STUDY TIPS

Schooling will be a family affair as it is in a traditional school. Everyone can contribute to the student's success. Self-discipline will play a large part in successfully completing the course(s).

SCHEDULE: Homeschooling allows your family flexibility in your school schedule. However, consistency helps students achieve their best results. Create a consistent schedule that works for your family and post it close to the work area.

RESEARCH shows that memory consolidation happens during sleep hours. Most students concentrate better and function more clearly during morning hours.

MAKE each hour count! Be rested, alert and have a plan.

DON’T PROCRASTINATE and lose study time, which will result in not accomplishing assignments.

LOOK AHEAD: Survey the guide, textbook and assignment. Inspect graphs, tables, illustrations. Read the summaries. Get an overview of the lesson that will be covered.

TOTAL DAYS

Special events this period: _______________________________________________________

**Note:** Submitting attendance sheets is a requirement for a final report card. One sheet per grading period with a total of 180 days reflected in attendances. **Copy as needed.**

Scan and **email** to giak6submit@gmail.com
HIGHLIGHT key vocabulary words or concepts using colored pens or sticky notes.

USE YOUR OWN WORDS: Complete each assignment without copying from the textbook. Explaining an answer in your own words will transfer information to your long-term memory. Use textbooks as references.

ASSOCIATE new ideas/information with previous ones. New ideas must be integrated with previous learning and connections to previous experiences/information created in order to grasp new concepts.

EXPLAIN what you have learned to someone to help define and consolidate the key ideas.

PREPARE thoroughly for tests. Learning is a daily accumulative process.

HOMEWORK is necessary even for students learning at home. Students in Grade 5 should begin reviewing material for science and social studies on their own after school time. After 10–15 minutes of review the student may need a parent to quiz them. This will encourage mastery of the material.

PARENT NEWSLETTER

Our mission is to provide excellent Christian education at a distance that does not feel distant. We’re here to help you succeed.

Our monthly newsletter shares helpful information and ideas. If there are topics you would find interesting and relevant, please contact the K–8 director.

GUIDELINES FOR ENRICHMENT

Outside of regular school work, there are many activities available to enrich your student's learning and development.

Enrichment is:
- Experiences or activities that challenge a student’s abilities
- Stretching his/her mind and rewarding a child’s natural curiosity
- Activities that develop skills/understanding beyond the basic requirements

Enrichment is not:
- More of the same
- Busywork
- Activities to keep the child occupied while you do something else

Used correctly, enrichment broadens the student laterally within the same area of study and does not necessarily mean going ahead to the next grade. Some examples are:
- Research to get more information—this often requires uses of reference resources resulting in a written or oral report
- Creative activities where the child completes a project or creates a product such as a poster, a booklet, a mural, a drawing, a story
- A field trip to a particular place related to the subject being studied

Some suggestions for enrichment will be found in the instructional guides. There may be other ideas that can be developed.
Enrichment can involve extracurricular activities—those activities that are not necessarily school related but still provide learning and development opportunities. These may be done privately or in groups.

- Enroll in a class. For example, many children enjoy art, music, gymnastics, Pathfinders, Adventurers or Scout groups and become involved in earning honor badges and other awards.
- Some children enjoy hobbies that they do by themselves or with family members, such as collecting stamps, making models, or creating objects from wood or clay.

Think about practical considerations such as expense, time and availability of resources, transportation and the real learning value of the suggested activity.

**GUIDELINES FOR FIELD TRIPS**

Many field trips are available to enhance a learning experience related to a topic the student is studying.

Sports events and trips to amusement parks may be of value to the child, but they rarely provide a truly educational experience that is able to be related to a school program or course of study.

Your student will benefit from being involved in planning the field trip and devising an activity that summarizes what has been learned. *Preparation* includes determining where you will go, why you want to go there, and what you want to see and do. Keep in mind, some places require advance arrangements.

Sometimes it is helpful to have your student make a list of things to do or see, or questions to be answered as you visit the site.

Your student might benefit from a culminating review of your experience. What did you see? What did your student learn? What was of most interest? How did this experience relate to the subject you are studying? One positive way to follow up is to encourage the child to share the experience.

**Some examples of culminating activities are:**

<table>
<thead>
<tr>
<th>Written report</th>
<th>Hands-on project</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oral report</td>
<td>PowerPoint project</td>
</tr>
<tr>
<td>Discussion</td>
<td>Bulletin board</td>
</tr>
<tr>
<td>Display art project</td>
<td>Scrapbook</td>
</tr>
<tr>
<td>Mural/diorama</td>
<td>Video presentation</td>
</tr>
</tbody>
</table>

After the field trip, take time to express appreciation to those who made your visit possible. Help your child write a thank-you note and perhaps include a drawing or other means of indicating what was learned. Your own note of thanks will serve as an example and will help to encourage your child in future courteous expressions.

We would love to hear about your field trips! Submit your best photos for possible inclusion in the newsletter.

**ALL COMMUNICATION**

Our primary means of communicating is via email. The K–8 director can be reached at griggsk-8@andrews.edu.

Tests and submissions may also be handled through giak6submit@gmail.com or giak8academics@gmail.com.

Please include the following details whenever you communicate with GIA.

- Student name
- GIA student number (on financial statements and in your enrollment email)
- GIA course title(s)
- Parent name, phone and email

**EDUCATIONAL PORTFOLIO**

It is recommended that every student create an educational portfolio for each academic year. Items that should be placed in the portfolio include:

- List of textbooks and ISBN numbers that were used during the school year
• Reading list for non-textbooks that the student read during the school year, both independently and as part of the curriculum
• Homework samples—a few selections from each chapter/unit
• Tests and projects
• Reviews and evaluations from their Griggs teachers
• Report cards
• List of events such as field trips taken, educational trips, extracurricular events such as music lessons, art and science fairs
• List of community service activities, Bible projects, church events in which the student participated
• School attendance

It is our recommendation that parents hold a physical file for one year, then convert it to a digital file, stored in two separate locations. Scanning each document can create a digital file. If you do not have access to a scanner an office supply store can scan the items, for a fee. Educational Portfolios should be kept until the student has entered and been accepted into college.

Educational portfolios are legal records of the student’s academic activities.

It is the parent/guardian's responsibility to be familiar with, and complete all the reporting requirements for the state or country in which you reside.
Griggs International Academy
High School Handbook

HIGH SCHOOL

Lamar Nangle
Phone: 301-680-6585
Email: griggsadvisor@andrews.edu

Mr. Nangle, vice principal, director of NAD Services and APASS, has an MS in psychology. He has worked at Griggs since 2002, giving him a broad and rich background that helps him advise and guide students with unique challenges.

“I really enjoy forming friendships with the students and seeing their successes.”
High School Requirements

DIPLOMA ELIGIBILITY

Griggs International Academy is dedicated to providing excellent academic opportunities to extend educational and career pathways. Griggs provides two types of diplomas in which to attain preparation for these life goals.

**College Prep diploma.** Provides the opportunity for students to broaden their educational foundation through the study of a Modern Language—a requirement for most four-year degree colleges—and increase academic rigor in math and science courses in preparation for college-level study as well as gaining a competitive edge in the workplace. This diploma requires at least 25.0 units of credit in specific areas of study. At least 6.0 credits must be completed with GIA, three (3) classes of which must be within the senior year. Griggs uses the Carnegie Unit which is equal to 45–50 minute class periods per week for an 18-week term (60 hours) = 0.5 of credit per semester.

**Standard diploma.** Provides comprehensive curricular foundation for students seeking to prepare for higher education and achieve career goals requiring at least 21.0 units of credit in specific areas of study. At least 5.0 credits must be completed with GIA, two (2) classes of which must be within the senior year.

Each diploma is in alignment with the Adventist Accreditation Association and Middle States Accreditation standards as well as approved by the Maryland Board of Education as a non-public high school. GIA will prepare a personalized plan of study that lists the units (courses) necessary to complete a College Prep or Standard diploma. A fee ($110) is charged for each diploma issued.

---

**College Preparatory Diploma Requirements: 25 units**
- 4 units of English (must include one unit of American Literature)
- 4 units of math (must include Algebra I, Geometry, Algebra II or higher level math course; if Pre-Algebra is completed, an additional math credit is required).
- 4 units of science (must include Biology and one higher level science)
- ½ unit of Health
- 1 unit of Physical Education
- 3 units of history and social sciences (must include U.S. History and U.S. Government)
- 1 unit Computer Literacy
- 1 unit of fine arts
- 2 units of modern languages (same language)
- 4 units of religion (1 unit of religion required for each 5 units taken with GIA, or may be petitioned)
- ½ unit of elective
- Minimum 20 hours per year of community service
- ACT/SAT test scores (required)

**Standard High School Diploma Requirements: 21 units**
- 4 units of English (must include one unit of American Literature)
- 3 units of math (must include Algebra I; if Pre-Algebra is completed, an additional math credit is required)
- 3 units of science (must include Biology)
- ½ unit of Health
- 1 unit of Physical Education
- 3 units of history and social sciences (must include U.S. History and U.S. Government)
- 1 unit Computer Literacy
- 1 unit of fine arts
- 4 units of religion (1 unit of religion required for each 5 units taken with GIA, may be petitioned)
- ½ unit of elective
- Minimum 20 hours per year of community service
- ACT/SAT test scores (recommended)

---

Recommended High School Course Schedule

The charts on the next page represent a recommended pattern of study for the high school diploma program. The order in which these courses are studied will vary from student to student. High school graduation requirements are listed to the left (see Diploma Eligibility). If taking GIA religion courses conflicts with your personal convictions, please discuss with the GIA advisor.

GIA diploma-seeking students may earn up to a full credit for an approved program by submitting a portfolio for evaluation. Fees apply. Contact Griggs for more information.

Transferring of GIA Credits

Students may enroll with GIA at any time. GIA will not be responsible for non-acceptance of credit by any other institution. Students are responsible for obtaining proper authorization prior to enrolling in GIA courses.

College courses are available to pre-approved, qualifying high school students.
## College Preparatory Diploma

**Minimum of 25 Carnegie Units***

High School Course Descriptions

All courses are available online through your computer or mobile app. Chromebooks are not supported by Griggs Online. Please refer to the enrollment packet online at griggs.edu/enrollment to choose the courses that are right for you.

**Business and Technology (Applied Art)**

1 Unit — **Standard and College Prep**  
*(must include 1 unit Computer Literacy)*

**Computer Literacy (1 Unit — required)**

1048  
Virtually every aspect of daily life requires some level of computer usage. You will research important issues such as developing your own code of ethics and apply them to real-world problems, computer security, cyberbullying and appropriate computer usage. Computer Literacy combines problem-solving skills while encouraging creativity and attention to detail throughout the course via assignments and projects using Microsoft Office Suite programs. You will gain experience in creating charts, letters, presentations and spreadsheets that rely on research and mastery of computer skills. Upon successful completion of Computer Literacy students will be equipped to handle the requirements of computer usage in higher education.

Computer software requirements (software is not available through GIA). Most recent versions of the following:

- Student needs access to a computer with high-speed Internet access
- Adobe Flash Player 10.1 or newer (free download)
- Microsoft Office 2016 or Office 365. If software is needed, contact GIA for free subscription. Office Online is not supported by this class.
- Adobe Acrobat Reader (free download)
- Cannot use Chromebook for this course

Note for MAC users: Students using a MAC computer should notify the instructor immediately upon enrollment.  
**Dropbox/Printer:** Projects are submitted via the Griggs Online Dropbox, therefore a printer is not necessary for completion of the course.

**Entrepreneurship (½ Unit)**

1095  
Do you dream of owning your own business? This course can give you a head start in learning about what you will need to own and operate a successful business of your own. You will explore creating a business plan, financing a business, and pricing products and services. You will also learn more about the regulations that apply to businesses, marketing products and services, and the legal and ethical guidelines that govern businesses.

**Keyboarding (½ Unit)**

1101  
*Note: For students without previous keyboarding experience; upon GIA advisor approval. Credit applies as elective credit only.*

This is a skill-building course that emphasizes proper keyboarding technique. You will work toward goals that develop speed and accuracy. This is a pass/fail course based on a competency exam at the end of the course.

**English**

4 Units — **Standard and College Prep**  
*(must include 1 unit American Literature)*

**English I (1 Unit)**

682 — textbooks required  
This course provides an opportunity for you to examine many different authors, observing how they construct stories, essays and speeches to achieve varied goals. You will be equipped with tools for understanding the writing process and given opportunity to grow as an author. Vocabulary will be emphasized since words are the tools of writers and any good writer needs a diverse tool box. You will learn to craft sentences and paragraphs into well-planned essays as well as illustrate the basic components of narrative and persuasive essays. Overall this course will help you become a better thinker, reader, writer and speaker.
English II (1 Unit)
683—textbooks required
Prerequisite: English I or equivalent.
You will review the principles of writing effectively and reading with understanding. A study of the elements of literature and literary forms such as the short story, essay, play and poem are discussed. You will also develop language skills by studying grammar topics, conducting literary analysis, and writing short compositions.

American Literature (1 Unit—required)
572—textbooks required
Prerequisites: English I and English II
This study covers the birth of the North American continent up through the present. You will be introduced to early North American cultures—Native American myths and legends, and the writings of early English and Spanish explorers. You will study the settlement along the East Coast by reading several narratives of the Puritans' experiences including the 20th-century play, "The Crucible." As the nation takes shape, you will explore various speeches and writings of various authors and poets including the Fireside poets, who celebrated American themes. The works of Emerson and Thoreau and the innovative poetry of Walt Whitman and Emily Dickinson will complete your course of study.

British Literature (1 Unit)
686—textbooks required
Prerequisites: English I and English II
In this course you will encounter many of the heroes of British Literature, from Beowulf, the hero of the ancient Anglo-Saxons, to William Shakespeare's King Henry V, one of England's most beloved kings. You will learn about dreaded diseases and murdered martyrs. You will travel through the Renaissance and Enlightenment, meet William Wordsworth, an ancient mariner, and the Lilliputians. You will watch Britain's success through the Victorian Age and its anguish through World War I—all through the voice of literature.

Fine Arts

1 Unit—Standard and College Prep

Art in World Cultures (¼ Unit)**
1087
Who is the greatest artist of all time? Is it Leonardo da Vinci? Claude Monet? Michelangelo? Pablo Picasso? Is the greatest artist of all time someone whose name has been lost to history? You will learn about some of the greatest artists while also creating art of your own, including digital art. We will explore the basic principles and elements of art, learn how to critique art, and examine some of the traditional art of the Americas, Africa, and Oceania in addition to the development of Western art.

Culinary Arts (¼ Unit)**
1094
Food is fundamental to life. Not only does it feed our bodies, but it's often the centerpiece for family gatherings and social functions. In this course, you will learn all about food including food culture, food history, food safety and current food trends. You will also learn about the food service industry and try your hand at preparing some culinary delights. Through hands-on activities and in-depth study of the culinary arts field, this course will help you hone your cooking skills and give you the opportunity to explore careers in this exciting industry.

Fashion and Interior Design (¼ Unit)**
1086
Do you have a flair for fashion? Are you constantly redecorating your room? If so, the design industry might just be for you! In this course, you will explore what it is like to work in the industry by exploring career possibilities and the background that you need to pursue them. Get ready to try your hand at designing as you learn the basics of color and design then test your skills through hands-on projects. In addition, you will develop the essential communication skills that build success in any business. By the end of the course, you will be well on your way to developing the portfolio you need to get your stylishly clad foot in the door of this exciting field.
Fine Arts Independent Study (1/2 Unit)  
1085  
*Note: Must have prior approval by GIA academic advisor before enrollment*  
Participating in Fine Arts is a skill or talent that helps you become a well-rounded, great student. If you are a motivated, self-directed student, who wants to hone your music or art abilities under the direction of a qualified local teacher, then this course is for you. You will set and achieve a personal goal during a semester through practice, performance, and event attendance. Completion of this course requires dedicated practice and self-reporting in a timely manner.

Music Appreciation (1/2 Unit)**  
1093  
Music is part of everyday lives and reflects the spirit of our human condition. To know and understand music, we distinguish and identify cultures on local and global levels. This course will provide you with an aesthetic and historical perspective of music, covering a variety of styles and developments from the Middle Ages through the 21st Century. You will acquire basic knowledge and listening skills, making future music experiences more informed and satisfying.

Photography I (1/2 Unit)**  
1089  
Have you ever wondered how photographers take such great pictures? Have you tried to take photographs and wondered why they didn’t seem to capture that moment that you saw with your eyes? This Photography I course focuses on the basics of photography, including building an understanding of aperture, shutter speed, lighting and composition. You will be introduced to the history of photography and basic camera functions. You will use the basic techniques of composition and camera functions to build a portfolio of images, capturing people, landscapes, close-up and action photographs.

Health and Physical Education

1½ Units—Standard and College Prep  
(must include 1 Unit Physical Education and 1/2 Unit Health)

Health (1/2 Unit)  
987—textbooks required  
CREATION Health is a lifestyle philosophy developed by AdventHealth to promote healthy, balanced, spiritually-fulfilled living that encourages individuals to reach their personal goals and positively influence others to do the same. CREATION Health is an acronym with eight principles: Choice, Rest, Environment, Activity, Trust, Interpersonal relationships, Outlook and Nutrition. By encouraging and empowering positive actions in these areas, the CREATION Health initiative can help participants achieve a life that is vibrant and satisfying.

Physical Education (1/2 Unit)  
1044  
This course is designed to provide you with the basic skills and information needed to begin a personalized exercise program and maintain an active and healthy lifestyle. In this course you will participate in pre- and post-fitness assessments in which you will measure and analyze your own levels of fitness based on the five components of physical fitness: muscular strength, endurance, cardiovascular fitness, flexibility and body composition. Since all areas of health are connected and affect our overall well-being, other areas of health, such as nutrition, stress management, and mental health, are also covered. This course requires 18 weeks of work but can be condensed to no fewer than 16 weeks.

Physical Fitness-Independent Study (1/2 Unit)  
1032  
*Prerequisite: Physical Education*  
This course is designed for full-time homeschool students who are committed to regular physical activity as part of a healthy lifestyle. If you already participate in extracurricular sports (e.g. swimming), or choose to do regular aerobic activity (e.g. biking, jogging) this course offers academic credit for that activity. The course requires 18 weeks of work but can be condensed to no fewer than 16 weeks.
You will participate in planning, executing and reporting weekly workouts, and learn about healthy lifestyle topics along the way. This is self-directed, but does require weekly check-ins, and you will show an improvement between a pre-test and post-test assessment.

History and Social Sciences

3 Units—Standard and College Prep
(must include 1 Unit U.S. History and
½ Unit U.S. Government)

Criminology (½ Unit)**
1091
In today’s world, crime and deviant behavior rank at or near the top of many people’s concerns. In this course, you will study the field of criminology—the study of crime. You will look at possible explanations for crime from the standpoint of psychological, biological and sociological perspectives, explore the categories and social consequences of crime, and investigate how the criminal justice system handles not only criminals, but also their misdeeds. Why do some individuals commit crimes while others do not? What aspects in our culture and society promote crime and deviance? Why are different punishments given for the same crime? What factors...from arrest to punishment...help shape the criminal case process?

Geography (1 Unit)
106—textbooks required
When Noah and his family left the ark, they had a whole new world in front of them; what else would they do but explore this enchanting land. You will learn that this is where the pursuit to explore, map and understand Earth began. As you begin this journey of studying our captivating world, you will learn how different each part of the world can be, from the bitter cold of Antarctica to the blistering heat of Death Valley in North America. You will not only learn about the diverse physical features of Latin America, North America, Europe, Russia, Africa, Asia, Australia, Antarctica and Oceania, but also their distinct and different cultures. Geology, the interesting study of our planet's physical makeup, will be discovered in this class as well.

Holocaust History (½ Unit)**
1092
Holocaust education requires a comprehensive study of not only times, dates, and places, but also the motivation and ideology that allowed these events. In this course, you will study the history of anti-Semitism, the rise of the Nazi party, and the Holocaust, from its beginnings through liberation and the aftermath of the tragedy. The study of the Holocaust is a multi-disciplinary one, integrating world history, geography, American history and civics. Through this in-depth, semester-long study of the Holocaust, you will gain an understanding of the ramifications of prejudice and indifference, the potential for government-supported terror, and will get glimpses of kindness and humanity in the worst of times.

U.S. Government (½ Unit—required)**
1099
The American system of government cannot and will not exist unless its citizens are able to understand and put to practice basic democratic principles such as separation of powers, majority rule with minority rights, individual liberty, and individual and community responsibility. These are the principles that make the foundation upon which the United States of America rests. This course covers the origins and foundations of the U.S. Government, the Legislative, Executive, and Judicial branches, rights and freedoms, political parties, the electoral process, state and local governments, and how its citizens participate in its process.

U.S. History (1 Unit—required)**
1028
How did the United States become one of the world’s most powerful nations? You will learn that it all started from a handful of colonies who endured many hardships such as the freezing cold winters of New England. In this U.S. history course you will study which people and events were key to the foundation of today’s U.S. society. Who wrote the Declaration of Independence? Was it one or many authors? Why is the Battle of Gettysburg considered the most significant battle in the Civil War? Who memorized the details for a water-powered machine that
helped cause the Industrial Revolution? Throughout this intriguing course you will delve into the topics from early American exploration all the way to the present events that are currently shaping U.S. history.

**World History (1 Unit)**

Most people go about life without worrying about what happened in the past. Why worry about something that isn’t in the present? No matter where in the world you live, your life has been shaped by issues, inventions, figures and ideas that have happened in the past. As you look deeper into World History, you will learn about the ancient world and how the major religions developed. You will walk through the Renaissance and Reformation and see how new ideas and culture were brought to this world. You will look at what issues caused the World Wars to begin and how new inventions changed warfare. Exploration of what has happened in the past can explain how that has shaped our lives and how we live today.

**Mathematics**

3 Units—Standard
4 Units—College Prep
(must include 1 unit Algebra)

Note: Students need to consult with the high school advisor before deciding which sequence of Mathematics courses best meets their needs.

Pre-Algebra available only upon recommendation of high school advisor. Course description available upon request.

**Consumer Math (Advanced Algebra with Financial Applications) (1 Unit)**

Money. Have you ever heard that money is the root of all evil? It can be if we are careless and don’t know how to handle it. This class will teach you how to be good stewards of your money and let it become a blessing and not a curse. You will learn how to make informed decisions about budgeting, spending and investing. “We don’t get to keep all the money we earn?” Surprise! You will learn about taxes and the importance of filing and keeping track of how much is spent and on what. You will take a look at various ways to buy things, how to take out loans, and the processes of buying and renting houses and cars.

**Algebra I (1 Unit—required)**

In this course you will learn the basics of algebra. You will begin with how variables are used in forming algebraic expressions and how expressions are used in forming equations and inequalities. After reviewing the properties of real numbers and the operations that can be performed on them, you will focus on writing, solving and graphing linear equations in one and two variables. You will then extend these skills to solving and graphing linear inequalities. You will explore exponents and their functions, work with polynomials and their equations and solving quadratic equations. The course concludes with solving and graphing square root equations. Upon successful completion, you should have a solid foundation and preparation to tackle higher level math courses.

**Geometry (1 Unit)**

Prerequisite: Algebra I

Did you know that Geometry comes from the desire to measure the earth? Geo- means earth and –metry means measurement. Geometry is the study of how things are measured and the properties of objects with regards to these measurements. In this class, vocabulary is very important. There will be theorems and proofs that will need to be learned and memorized. You will learn about planes, not the kind that fly in the sky, but flat, two-dimensional surfaces. You will also take what you learned in Kindergarten about triangles and circles and investigate further. You will also learn how to measure solid figures using the theorems.

**Algebra II (1 Unit)**

Prerequisite: Algebra I

Remember all the techniques and concepts learned and used in Algebra I? Now you will get to use them in this class. After a brief basic review, you will dive into the study of quadratic polynomials and formulas, then look...
at their functions and uses. We will once again look at polynomial equations but take it a step further to higher-degree. The geometry of lines and conic sections will also be studied in this class. Instead of just one or two variable quadratics, you will learn how to solve three variable quadratics, as well as vectors and the polar coordinate system. Finally, you will learn how logarithmic, exponential and trigonometric functions are applied to real world situations.

**Integrated Math (1 Unit)**
1024

This foundational course provides the basic knowledge needed for all future high school math courses. The material covered in this course is important, and everyone can do it. You will have a good time solving the real-world problems algebra can help answer. Course activities make the numbers, graphs and equations more real. The content in this course is tied to real-world applications like sports, travel, business and health. This course is designed to give you the skills and strategies to solve all kinds of mathematical problems. You will also acquire the confidence needed to handle everything high school math has in store for you. Assessments are designed to ensure that your understanding goes beyond rote memorization of steps and procedures. Upon successful course completion, you will have a strong foundation for higher level math courses.

**PreCalculus (1 Unit)**
1025—eBook fee: $50

Prerequisite: Algebra II and Geometry
You, a mathematic analyst, investigate how advanced mathematics concepts are used to solve problems encountered in operating national parks. As you venture from algebra to trigonometry, you analyze and articulate the real-world application of these concepts. The purpose of this course is to study functions and develop skills necessary for the study of calculus. This course includes algebra, analytical geometry and trigonometry.

**Modern Languages**

2 Units—College Prep

**Spanish I (1 Unit)**
1081

¡Bienvenidos! Welcome! Take a virtual tour and explore the cultures of Spain, Cuba, Colombia, and Argentina as you learn how to greet people, introduce yourself and speak about your home, family, school, and community. As you learn basic vocabulary and grammar skills, you will expand your knowledge and learn to speak about more complex topics such as shopping, weather, sports, entertainment, and leisure activities. You will even learn how to order your own food at a restaurant—that alone would make it worth it! The course introduces new words and phrases with pictures, audio clips, and examples. There are many opportunities to practice through interactive activities in the form of games, written practice, and listening and speaking exercises. “¡Aprende español con nosotros!”

**Spanish II (1 Unit)**
1082

Prerequisite: Spanish I

¡Vamos a ir de vacaciones! Travel virtually through Central America and the Caribbean, spending time in museums, traffic jams, and even the hospital! Meet people from many different countries and cultures. While waiting for the plane ride home, you will also meet some Spanish-speaking people from different parts of the United States. The purpose of this course is to strengthen Spanish listening, speaking, reading, and writing skills. You will experience the beauty and expressiveness of a language that is shared by different people and cultures throughout the world! “¡Aprende español con nosotros!”
Religion

4 units—*Standard and College Prep*

**Bible I Encounter (1 Unit)**

1073

Have you ever wondered what God is like, or if He even exists? Many people, even ones who are raised Christian ask these big questions at some point in their lives. As you take this course you will explore these big questions that are foundational to encountering God and building a relationship with Him. You will also meet God in the flesh through His Son Jesus, who God sent to save humanity. You will cover the first months of Jesus’ life as well as His last week. It may not sound like a lot of time, but these short weeks make up most of what the Bible tells us about Jesus in the Gospels. Last you will be looking at some of God’s greatest gifts to you. You will study the most precious gift anyone has ever received—the gift of grace! Grace allows us to fully experience another one of God’s gifts—the gift of identity. Finally, you will look at God’s first gifts to us, creation and the Sabbath. If you have ever felt like Sabbath is a burden rather than a gift for us to enjoy this course will change the way you see the Sabbath and Jesus who is the Lord of the Sabbath.

**Bible II (1 Unit)**

108—*eBook provided/textbook available*

So how did the church get here anyway? It definitely didn’t just appear out of nowhere. You might think that it began with the disciples and the early Christian church. You will learn that they were a part of the formation of the church today but God’s church actually started all the way back in the Old Testament. God gave Moses specific instructions on how the first sanctuary should be, based off of the heavenly sanctuary. As you journey through the Old Testament to the early Christian believers to modern times, you will see God’s plan and purpose carried out by many prophets, people and nations. Through expeditions across the desert to wars, from shipwrecks to persecution, God’s church has remained. You will learn about God’s remnant church and how you are involved in keeping the faith going.

**Bible III (1 Unit)**

1045—*eBook provided/textbook available*

1st Semester: Daniel & Revelation and Beliefs

- What is the Great Controversy? In this course you will gain an understanding of how God offers His perspective of the past, provides hope and forgiveness for today, and gives insight and assurance for things yet to come. Also, you will learn about the beliefs of the Seventh-day Adventist Church and how each belief leads to a deeper, personal relationship with Jesus, how to experience victory in Jesus and finally how He plans to rescue His faithful friends in the end!

2nd Semester: Romans and Friendships

- What do I have to do to be saved? Through a study of the book of Romans you will learn how the Gospel is available to all who will believe and Jesus' desire to change your life forever. You will see how He has solved the sin issue once and for all, and wants to cover you with His righteousness if you will but surrender your heart to Him. You will also learn that by allowing Jesus in your heart and spending time with Him you can experience true friendships on earth. Not only will you learn the mechanics behind friendships, the test of true love, and self-worth in a relationship, but how through Jesus it is truly possible to love our neighbors as we love ourselves.

**Bible IV (1 Unit)**

1046—*eBook provided/textbook available*

1st Semester: Hebrews and Marriage & Family

- Is the sanctuary really relevant to us in the 21st Century? This course explores the meaning and comparison of the Old Testament sanctuary services to what Jesus is doing for us, today, in the heavenly sanctuary. You will learn of His great sacrifice and love for you and His desire to be with you. Many times in the Bible Jesus' relationship with His people is likened to a marriage. Also in this course, you will learn God's design for love and how to support each other in the marriage and family realm. You will gain practical advice on how to manage your finances, to teach your children to love and serve Jesus, and to love others as yourself.
2nd Semester: Worldviews & Religion and Life Philosophy & Moral Issues

- What is the foundation for your morals and philosophy of life? In this course you will tackle the foundational issues of morality, examining why we do the things we do and for what purpose. Knowing what and why you believe the way you do provides a foundation on which to build your worldview. Major religions are discussed to bring about empathy and respect for another's point of view while solidifying your own belief system. This course also provides an understanding of cults and alternative religions and the Christian's response to them.

**Sciences**

3 units—**Standard** (must include 1 unit Biology)
4 units—**College Prep** (must include 1 unit Biology; 1 unit higher-level science)

**Anatomy and Physiology (1 Unit)**

1026

*Prerequisite: Biology*

Explore the organization of the human body and how it works. Acquire knowledge necessary to understand what the body is doing and how you can help the body cope with many different situations. Body systems will be studied in order to understand how their structure, location and function allow for interaction with other parts of the body.

**Biology (1 Unit—required)**

178—textbooks required

Life is beautiful! Learn to see the amazing world that God created for us to enjoy in new and different ways. Study the interwovenness and order of the biological world from the tiniest cell to the largest of ecosystems as they shout the evidences of an intelligent Designer. In this virtual lab-based course you will study firsthand the creative genius of God's design in different organisms and the environments in which they live. If the study of plants, animals and the human physiology are your thing, or you just want to fulfill the mandatory life science credit, you will want to take this class.

**Chemistry (1 Unit)**

1027

What happens when you mix vinegar and baking soda? Why does water boil when it gets hot? Who discovered the first atom? At its very core this course explains how chemistry makes life possible. No matter where you work, play or sleep, chemistry is always there—it's just labeled in many different ways. This virtual lab-based course will explore cool topics such as electrons in atoms, chemical reactions, electrochemistry, thermochemistry and nuclear chemistry—to name just a few. But most importantly, it portrays the intricate details that God has created to make our world special and at the same time hopefully enhance your interest in the many forms of chemistry as it affects everything you do!

**Earth Science (1 Unit)**

1054

*Online lab fee $20*

Asteroids, granite rock, fossils, rain, the sun and the Grand Canyon... what do all of these have in common? These are just some of the everyday evidences of a Creator God that you will study in this class. You will explore the biblical origin of the earth and learn to interpret the evidences and information that surround the debate of creation vs. evolution. This virtual lab-based course also provides evidences and understanding of God in the areas of astronomy, meteorology, geology, oceanography, and environmental science as well. Although you may not agree with everything you read in the textbook, it will allow you to discuss what others believe and hopefully bring you into a better understanding of the One who created it all!

**Forensic Science I (½ Unit)**

1083—*not supported internationally*

Fingerprints. Blood spatter. DNA analysis. The world of law enforcement is increasingly making use of the techniques and knowledge from the sciences to better understand the crimes that are committed and to catch those individuals responsible for the crimes. Forensic science applies scientific knowledge to the
criminal justice system. This course focuses on some of the techniques and practices used by forensic scientists during a crime scene investigation (CSI). Starting with how clues and data are recorded and preserved, you will follow evidence trails until the CSI goes to trial, examining how various elements of the crime scene are analyzed and processed.

Forensic Science II (½ Unit)**
1084
Although the crime scene represents the first step in solving crimes through forensic science, the crime laboratory plays a critical role in the analysis of evidence. This course focuses on the analysis of evidence and testing that takes place within this setting. You will examine some of the basic scientific principles and knowledge that guides forensic laboratory processes, such as those testing DNA, toxicology and material analysis. Techniques such as microscopy, chromatography, odontology, entomology, mineralogy and spectroscopy will be examined.

Physical Science (1 Unit)
1053
Online lab fee $20
Have you ever been intrigued by lightning and want to know what it really is and what causes it? Or maybe you are fascinated with the speed of light? Physical Science helps you to understand the physical environment in which you live and apply scientific principles to these everyday observations you encounter. It will also expand your knowledge in areas such as different forms of energy, interactions of force and motion, the fundamental structure and properties of matter, things that lay and wait for investigation in the amazing creation God has provided for us!

Physics (1 Unit)**
1014
If you find gazing at the stars like Galileo or dodging apples falling from a tree like Newton interesting, this is the class for you! In each module of Physics, you will discover the contributions of scientific geniuses like Galileo, Newton and Einstein. Through their work, you will learn the concepts, theories and laws that govern the interaction of matter, energy and forces. From tiny atoms to galaxies with millions of stars, the universal laws of physics are explained through real-world examples. Using laboratory activities, simulations, images and interactive elements, you will follow in the footsteps of some of the world’s greatest thinkers.

University Credit/
Advanced Placement Credit

University credit for high school students (formerly Dual Credit) is an initiative developed by Andrews University to provide an amazing opportunity for students enrolled in Grades 10, 11 or 12 to earn Andrews University credit during their high school experience. Students who meet admission criteria can enrich their education with Andrews University courses.

Griggs encourages enrollment of qualified students, so go online and find the latest information about courses available during high school on the Andrews website: andrews.edu/services/precollege/ and then talk with the GIA academic advisor to figure out which class will be the right one for your plan of study. Courses must be approved by the GIA academic advisor BEFORE enrollment.

You're eligible to take Andrews classes if you meet the following criteria:
- You are enrolled in grade 10, 11, 12 or equivalent education levels.
- You have a minimum cumulative GPA of 3.00 from an accredited high school. If a transcript from an accredited high school cannot be submitted, Andrews requires standardized test scores.
- If your first language isn't English, you must provide evidence of English proficiency.
- Andrews requires signed approval from a parent and high school registrar.

There are a few financial requirements:
- $135 per credit tuition rate, you must register for and start the course(s) before you graduate from high school.
- You can take a maximum of two courses per semester. You must meet any prerequisites.
- If you decide to attend college full-time at Andrews, you can request that up to 30 of your undergraduate credits taken as a high school guest student apply toward your proposed degree. You must have earned at least a C in each course for said course to be accepted for degree credit. See Andrews website for details—andrews.edu/services/precollege/.

Student’s responsibilities:
- GIA students must receive clearance from the GIA academic advisor and registrar BEFORE enrollment.
- As a guest student taking Andrews University classes, you are held to the same academic policies, procedures and deadlines as University students.
- Commit eight (8) hours per week to college level learning.

Courses Available for 2019–2020 School Year:

**Fall Semester: August 26—December 12, 2019**
- ANTH 200 950 Cultural Anthropology [3 credits]
- BIOL 208 905 Environmental Science [4 credits]
- ENGL 115 950 College Writing I [3 credits, Grade 12 students only]
- HIST 117 950 Civilizations & Ideas I [3 credits]
- MATH 168 950 Precalculus* [4 credits]
- MATH 191 950 Calculus [4 credits]
- PSYC 101 950 Introduction to Psychology [3 credits]
- RELT 225 950 Doctrines of the Adventist Faith [3 credits]

**Spring Semester: January 6—April 30, 2020**
- ENGL 115 950 College Writing I [3 credits, in Grade 12 only]
- ENGL 215 950 College Writing II [3 credits, in Grade 12 only]
- FDNT 230 950 Nutrition [3 credits]
- MLSC 100 Medical Terminology [1 credit]
- HIST 118 950 Civilizations and Ideas II [3 credits]
- MATH 191 950 Calculus [4 credits, sample syllabus]
- PSYC 101 950 Introduction to Psychology [3 credits]

*Submit recent qualifying ACT or SAT math scores or take the Math Placement Exam at least one month before class starts to meet the prerequisite skill level for MATH 168 and MATH 191. Email sde-exams@andrews.edu to request the MPE Form. Course continues through both semesters with required weekly meetings.

**ADVANCED PLACEMENT (AP)**

GIA does not specifically offer AP courses within our curriculum. We do accept accredited AP transfer credit if the student has completed the work prior to enrolling in GIA as a diploma-seeking student.
Since GIA is not a testing site for AP courses, a current diploma-seeking student can get AP credit by obtaining pre-approval by the academic advisor. The student can take the exam at an approved site and have the scores submitted to GIA. Recording fees would apply.

**Weighted GPA vs. Unweighted**

University credit and AP courses are weighted differently than traditional courses. See the following chart:

<table>
<thead>
<tr>
<th>Grade</th>
<th>(Regular)</th>
<th>(University Credit/AP course)</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
<td>5.0</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
<td>4.0</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
<td>3.0</td>
</tr>
<tr>
<td>D</td>
<td>1.0</td>
<td>2.0</td>
</tr>
</tbody>
</table>

*Students must attain a grade of C or higher

*GIA transcripts will record weighted and unweighted GPAs

**Credit Recovery Courses**

Credit recovery is a way for students to get back on the educational track after failure of a course without restructuring the school schedule or loss of time waiting for the next school year. Students take a condensed version of the course which covers general subject area requirements within a 12-week period of time. All courses are online only.

**Courses offered:**
Algebra I—953
American Government—932
Biology—929
Consumer Math—927
Earth Science—933
English I—928

**Course Length:** Courses must be completed within a 12-week period.

**Cost and Payment:**
No enrollment fee
$30 Technology fee
$200 Single semester only (½ Unit)
$250 Full year (1 Unit)

Payment in full can be made by check, money order or credit card.

**Procedure:**
1. Download/print the enrollment form
2. Fill out enrollment form
3. Get required signatures on the form
4. Send enrollment form and payment to:

   Griggs International Academy
   8903 U.S. Hwy 31
   Berrien Springs MI 49104

   Or call 269-471-6529 to make payment and email enrollment form to: enrollgia@andrews.edu
5. Order book(s) from online bookstore
6. Receive email with password
7. ***READ THE DIRECTIONS in the course content***
8. Begin doing the coursework
9. Complete the course within 12 weeks
10. Move on toward your educational goals

**Enrollment Form:** Use one enrollment form for all courses in which the student is enrolling. Signatures must be obtained before the enrollment form can be processed. These signatures verify the student’s failure of selected courses.

**Textbooks:** Textbooks can be purchased online through the Griggs online bookstore on the Griggs website at griggs.edu or books can be acquired online. If purchased online, be sure to match the ISBN.

**Recordkeeping:** Each school has a different policy regarding the recording of a grade for a recovery course, so please refer to your school’s policy. Griggs will assign a percentage grade.

**Deadline Extension:** Students should complete the recovery course within the allotted 12-week time period. However, extensions requested BEFORE the deadline will be granted a one (1) week extension. Deadline extensions made AFTER the deadline will only be accepted if requested by a school official and upon receipt of the $50 deadline extension fee.
GIA STUDENT ADVANTAGES

There are many advantages to studying online or independently from an accredited school. GIA courses are self-paced and flexible. A guardian or supervisor can assist with planning a schedule and determining when assignments are due. Distance education requires self-motivation and discipline, both useful life skills. Since a laptop or tablet can be used to complete assignments, students also have the flexibility to study while traveling or if away from home for the day. Enrollment takes place all year long to facilitate the schedules of families from all locations and circumstances. One-on-one contact with a teacher who will personally coach you through a course by providing lessons, feedback, tests and support is another valuable advantage.

Hint: Students studying independently at home have one year to complete a nine-month school year, but can move as fast or slowly as needed to be successful during that period.

HIGH SCHOOL TEACHERS

GIA administration is careful to hire qualified teachers for each course. Every course has a homepage with information about the teacher, contact information, announcements and helpful links. Teacher and student connection is important and will take a little bit of extra effort since you are not sitting in the same classroom. Navigating through the Griggs Online platform will become natural after the first few days and utilizing the email system makes it convenient for students and teachers to keep in regular contact. Just like in a physical school, each teacher has been given guidelines for communicating with students. Make sure to read all the notes and directions for each course. Teachers will leave feedback within the assignments and through email.

Make sure you read and respond to emails when a teacher needs you to provide information. These emails usually relate to helping you earn a better grade.

Hint: Several teachers utilize videoconferencing using Zoom or Skype. Download these free videoconferencing options on your computer or as an app on your tablet/phone. Reach out to teachers and always respond promptly to their messages.

GRIGGS ONLINE
(LEARNING MANAGEMENT SYSTEM)

Once enrollment is complete, an email with login information will automatically be sent. It is important to learn as much as possible about how to use Griggs Online. There are several tutorial links and even videos to assist students. At first it will feel like “the first day of school,” but that will soon change, and doing assignments will become second nature. Do not skip reading the directions, the content and all other assigned reading. Some courses have physical textbooks and some courses have the textbook information embedded, so expect slight adjustments from course to course. Courses are constantly reviewed and revised for improvements. Keep a notebook (paper or digital) to take notes, create schedules, and keep track of information for each course.

Hint: Do not submit an assignment until every question is complete.

FEEDBACK FROM TEACHERS

Once an assignment is submitted, it will instantly show up for the teacher to see. The teacher has approximately 48 business hours to grade the assignment and give feedback on your work. This feedback is very important to successfully completing the course. Learn the following process:

· Step 1: Go to the homepage for the course
· Step 2: On the navigation bar click the dropdown arrow for “Assessment”
· Step 3: Click “Quizzes” from the dropdown list
· Step 4: From the list of assignments click the dropdown arrow on the one you want to review
· Step 5: Of the two available options, click on “Submissions”
· Step 6: Click on “attempt 1”
· Step 7: Read the teacher comment at the top of the assignment and then scroll down to see additional comments and answers on individual questions

Hint: Some questions are auto-graded, so the teacher will review those questions along with the long answers. The teacher can override the automated grading if the student has given an answer that is correct. You can tell when that occurs by checking the point value of the answer, even if your answer has a red X by it.
MENTORING

Students attending GIA full-time (taking four courses or more) will be assigned a mentor group. A mentor is a faculty member who will share announcements, start online discussions, and be a student advocate. For example, a mentor might send out inspirational articles, start a group discussion, or work with the Student Services director if there is a situation that needs attention. Learn more about your specific mentor by selecting the mentor group listed on the home page. Click on the mentor group link to obtain more specific information.

Hint: Students who get involved with their mentor and teachers tend to be more successful in achieving academic success, so be intentional about connecting with your mentor.

STUDY ATMOSPHERE

Studying independently means that students must also have an area conducive to learning. Make your study area a place where you look forward to spending time. Here are some suggestions to help create an environment for learning:

1. Have a special location that you go to each day
2. Begin each day with a devotional and prayer time
3. Keep your study area neat and organized—use a desk if possible
4. Make sure all technology and accessories are ready to use
5. Put up posters or simple quotes that are inspiring
6. Have a small bookshelf to keep books and supplies organized
7. Play classical or instrumental music if you need background noise
8. Make sure there is good lighting and fresh air when possible
9. Reward hard work with short breaks throughout the day
10. Use breaks to get some exercise
11. Avoid social media and computer games during school time
12. Keep a calendar nearby to remind you of important deadlines

DISCUSSION-BASED ASSESSMENT (DBA)

Discussion-Based Assessments are an important part of being a successful online student. This is when students connect “live” with the teacher of the course. Usually, these videoconferencing sessions take about 10–15 minutes total. It is important to read the information for each course in the Content area. Teachers will use Zoom or Skype to connect and you will need to know a meeting code. In most cases, there is some preparation work that should be done before the DBA. Find directions in the Content of the course to see what needs to be done. This is considered an assignment and contributes to the final grade. DBAs could vary from course to course, so reading the directions is key.

Here are a few guidelines to keep in mind to help the DBA go smoothly:

- Download Zoom (or Skype) ahead of time
- Make sure the camera and mic are working
- Be familiar with content for this meeting
- Complete questions or project ahead of time
- Be sure to sit in a well-lit, quiet room
- Use Ethernet to get maximum connection
- Connect with a computer (not phone) if possible
- Be on time (keep teacher informed if you need to cancel)

DBAs will add a classroom teacher/student connection to your online learning. Use this as a time to build a relationship with teachers that want to coach and mentor your success.

EXAMS/TESTING

Most exams require the presence of a proctor. Academic standards are an important part of education, so we strictly enforce the policies for taking an exam. In order to maintain the integrity of the examination process and adhere to accreditation standards, an exam supervisor must be selected to proctor exams at the time of enrollment. Failure to follow proctor selection guidelines may result in failure of exam or course. A proctor must be:

1. Teacher or school administrator, testing center staff,
guidance counselor, librarian or pastor not related to, or in residence with, the student

2. Verifiable and approved by GIA testing department

The testing process is as follows:

- **Step 1:** Complete Proctor Information & Request at time of enrollment.
- **Step 2:** Complete and submit all coursework and DBAs leading up to the exam.
- **Step 3:** If on a monthly payment plan, ensure your student is not completing ahead of schedule.
- **Step 4:** Request exam from Griggs Online either through selecting the link in the course Content or from your course homepage by clicking the dropdown menu "Requests" on the navigation bar. Please allow 3–4 business days prior to testing day for processing.
- **Step 5:** Examination date, time and location arrangements are made between student and proctor.
- **Step 6:** GIA sends login and password information to proctor. Exam is then released for a three-week window of time.
- **Step 7:** The proctor should NEVER give the exam password to the student.

Hint: Once the coursework leading up to the exam has been submitted, you can request your exam. Please request at least a week prior to your testing date to ensure availability.

Standardized testing is an important part of educational assessment. GIA uses the Stanford10 for assessing student progress and as a benchmark of how our courses are preparing students. Parents will receive an informational report about the assessment once it has been completed by the student. New students take the standardized test at the time of enrollment while returning students take every other year (Grades 5, 7, 9 and 11). There is no extra charge for required year exams.

**MATH TUTORING**

GIA teachers realize that math courses are often the most difficult for some students to do independently. Use the link from the side column on Griggs Online to request math tutoring. Fees for this service may apply. The tutor will set up an appointment that will last approximately 15–20 minutes.

Choosing distance education gives students flexibility along with a certain amount of self motivation. Students are expected to study independently by reading the assignments, researching information online, watching related media presentations linked to the course, and doing assignments (homework) on their own. All GIA courses are facilitated by certified teachers who are willing to answer questions. The first step is to email the teacher and find out if your questions require a Zoom meeting or just a few emails going back and forth.

Hint: If you come across something that you cannot figure out, do not just skip it and go on. Those are lost points that are nearly impossible to compensate for later.

**TEXTBOOKS**

Some courses require buying textbooks which are not included in the course tuition. The online bookstore will help you know the exact edition of the book required for the course. Find the link to the bookstore at griggs.edu.

Hint: The online bookstore has a section called “THE MARKET PLACE.” This is where you can find used textbooks for reduced prices, so shop around. Make sure to check the ISBN to match it to the required textbook for your class.

**PARENT/GUARDIAN INVOLVEMENT**

Parents are encouraged to get involved in the Griggs experience and contact GIA if there is a concern or if anything is not clear. It is important for students, parents/guardians, teachers and GIA administration to work as a team to get the best possible educational outcome. Parents/guardians are often the best tutors for students, so we encourage them to get involved and remain aware of how things are going with their own student.

Hint: Parents can use the student login to regularly check on student progress.
GRADUATION

Self-paced education requires students to pay special attention to direction given by the high school advisor. The advisor helps students know what courses are needed to meet graduation requirements. If a student is transferring from a previous high school, official transcripts from that school need to be sent to GIA as soon as possible. Once a student has completed almost all the required credits, he or she needs to send a “Request To Graduate” along with a graduation fee (please refer to fees listed in this catalog).

UNIVERSITY CREDIT FOR HIGH SCHOOL STUDENTS

GIA is owned and operated by Andrews University and we are proud to offer a select group of online university courses to our students. For more information see Course Description section of this handbook or visit andrews.edu/services/precollege.

COMMUNITY SERVICE

An important part of the GIA experience is completion of a minimum of 20 hours of community service each year. This is a chance to serve others outside your usual circle. Access the link to the required form on Griggs Online (griggs.edu—look at the links in the left column).

NATIONAL HONOR SOCIETY

The National Honor Society is one of the highest honors that can be awarded to a high school student and we are excited that our students can now be recognized with the best! Since the National Honor Society organization strives to recognize the total student, to be eligible you must be at least a sophomore (completed at least 6.0 credits) that excels in all of the following areas:
- **Scholarship** = GPA 3.5 or above
- **Leadership** = Elected or appointed leadership positions you have held in school, church and/or community.
- **Service** = Activities that are done on behalf of others (not including immediate family members) for which no compensation (monetary or other) has been given.
- **Character** = Character references from four people that know you (no relatives—could include, but not limited to, pastor, teacher, work supervisor, Pathfinder director)

Eligible students will be sent the application form at the end of January. The selection committee will then evaluate all of the applications and those who qualify will join the other NHS students across the country approximately once a month to discuss various projects.

SENIOR YEAR CHECKLIST

When you are enrolling in the last set of courses (verified by academic advisor), you will need to make sure to do the following when those courses are complete:
- Contact academic advisor (GriggsAdvisor@andrews.edu) for a graduation audit
- Pay graduation fee by either mailing a check or calling the Cashier (269-471-3326) to pay with a credit card over the phone
- Send ACT or SAT Score Report to academic advisor (GriggsAdvisor@andrews.edu) if seeking a College Prep H.S. Diploma
- If you transferred from another high school, be sure to have your former school mail official transcript to:
  Griggs International Academy
  Attn: Lamar Nangle
  12501 Old Columbia Pike
  Silver Spring MD 20904
- Send Community Service Report(s) to academic advisor (GriggsAdvisor@andrews.edu)
THE CARING HEART AWARD

The Caring Heart Award has been established to give recognition to those secondary students who have demonstrated a personal commitment to active participatory service in witnessing-service activities and programs. Here are the criteria for eligibility:

- Sophomore or Junior
- GIA diploma-seeking student
- Have been with GIA for more than one year and planning to continue with GIA
- Involved in witnessing-service activities in their community, church, or on mission trips

WORDS OF ADVICE!

Distance education provides the privilege of taking charge of your education. It is important to make the best of your high school years while preparing for the future. In the words of Benjamin Franklin, “Dost thou love life? Then do not squander time, for that is the stuff life is made of.” This is an important stage of your life. GIA administration and staff are here to be supportive of your journey!
TRANSCRIPT REQUEST FORM

TRANSCRIPT REQUEST FOR GIA DIPLOMA-SEEKING STUDENTS

Students who transfer from other schools and wish to receive a high school diploma through Griggs International Academy must submit an official transcript listing all credits earned in other institutions.

Unofficial transcripts are acceptable for evaluation and advisement. Official transcripts are required before a diploma can be granted.

Official transcripts must be signed and sealed. Transcripts received from accredited high schools will be accepted in accordance with graduation requirements. Transcripts from foreign or non-accredited institutions will be evaluated by the registrar and accepted at the discretion of GIA. If a transcript is not in English, a certified translation must accompany it.

Use GIA transcript form (on the next page or online) to request an official transcript from previous schools. Contact previous schools to be advised of transcript fees.
GIA Official Transcript Request Form

The Griggs Story

At the beginning of the 20th century, an educator by the name of Frederick Griggs envisioned making Christian education available to people around the world. His vision took shape in 1909 with the establishment of The Fireside Correspondence School. Within two years, The Fireside Correspondence School offered 11 secondary and nine college courses. By 1916 its students represented nearly every state and province in the U.S. and Canada, as well as 10 other countries. The Fireside Correspondence School was later renamed Home Study Institute (HSI); the name was subsequently changed to Home Study International.

In 1990, the HSI Board of Directors assigned names to its three academic divisions; thus, Home Study Elementary School, Home Study High School, and Griggs University became part of HSI’s terminology. In 1991, Griggs University began offering college degrees.

In recent years, the homeschool movement has exploded, but the term “homeschool” has taken on special meaning for school districts and families who design their own school programs. Pressure from students, parents and other institutional partners drove the HSI Board of Directors to re-examine the school’s name in order to better reflect the mission and operation of HSI. In 2005, the Board voted to change the name of the organization to Griggs University (GU) and Griggs International Academy (GIA).

Since 1909, more than 200,000 people have studied with Griggs. Griggs plays a unique and vital role in the educational development of students of all ages in all parts of the world. People from all walks of life have discovered that distance education helps develop self-reliance, independent thinking and responsibility. From its humble beginnings in a one-room office, Griggs has grown into a worldwide school that maintains high scholastic standards and utilizes the services of qualified professionals in all aspects of its operation. Yet Griggs combines the convenience of a portable education with the personal touch provided by faculty and advisors who care about students.

In 2009, Griggs celebrated its 100th birthday. Our administration, faculty and staff remain committed to the vision of Frederick Griggs, who believed that every student has the right to a Christian education. All of us at Griggs recognize that we share with parents a sacred responsibility to help students develop the skills, knowledge and judgment necessary to build a community better than the one they inherited.

During the summer of 2010, a committee was established to study the feasibility of Andrews University owning and operating Griggs International Academy. This committee recommended that the University assume ownership of the Academy.

In November 2010, the Andrews University board voted to accept ownership of both Griggs University and Griggs International Academy, thus enabling the institution to remain intact and then relocate Griggs to Berrien Springs, Michigan, on the campus of the University. In order to administer its new acquisitions, Andrews University established a School of Distance Education under the direction of a dean.

The move to Andrews University has resulted in more than a simple relocation for the Academy. It has meant a complete restructuring of the organization and rebuilding of staff. During this transition, the institution’s commitment to the basic intent of its mission statement has remained firm. We have restructured in such a way as to provide the staff resources necessary to improve curriculum, faculty effectiveness and student support. We are in the process of developing a new institutional infrastructure that will support our vision and better utilize technology to serve students, parents and faculty.

Griggs International Academy also shares with Andrews University a student body that is not limited to one place. Griggs is literally an international academy. Griggs International Academy continues to provide Christian education to a diverse student body located in most of the countries of the world. We have new groups of students in Asia and Africa.

With one man’s vision and God’s blessings, Griggs International Academy continues to meet the educational needs of students and families around the world.
