**NOTE:**

The second week of the monthly offering schedule is designated for World Budget. All loose offering should go to World Budget. However, if the offering is called for the specifically highlighted ministry, then you must post the World Budget offering to the highlighted destination. World Budget is comprised of several ministries and when World Budget is collected, each of these ministries receives a portion of what is collected. If the offering is called for the specific ministry rather than World Budget, then none of the other ministries get a portion of that week's loose offering.
