Checklist for AAPOR TI

Survey:

Illinois Republican Primary Poll (May 2022)

TI Disclosure Elements	Answers
1. Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.	**Emerson College** **Nexstar Media**
2. The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.	**See Below**
3. A definition of the population under study and its geographic location.	**Illinois likely Republican primary voters**
4. Dates of data collection.	**May 6-8, 2022**
5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.	**Data was collected using a list of 10,000 mobile numbers and a multi-stage probability sample of 49,092 landlines provided by L2, with an online panel provided by Amazon Mturk.**
6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.	**Aristotle, LLC** **Amazon MTurk** **L2**
7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.	**Amazon MTurk uses opt in panels and not online ads to recruit participants**
8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.	**See #5**
9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.	**IVR, Online, & SMS-to-web**

10. Sample sizes (by sampling frame if more than on was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non- probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To avoid confusion, it is best to avoid using the term "margin of error" or "margin of sampling error" in conjunction with non-probability samples.	**The Republican primary sample consisted of very likely voters, n=1,000, with a Credibility Interval (CI) similar to a poll's margin of error (MOE) of +/- 3 percentage points.** **A screening question was asked if the voter was a likely voter. If the respondent said they were not likely to vote, they were eliminated from the sample.**
11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported.	**The data was weighted by gender, age, education, race, and region based on 2022 turnout modeling**
12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. ***Reviewer: Type NA if not applicable.***	**N/A**
13. Contact for obtaining more information about the study.	**emersonpolling@emerson.edu**

1. What is your party affiliation?
   Not registered to vote (end)
   Democrat
   Republican
   Independent

2. How likely are you to vote in the Illinois primary on June 28?
   Very likely
   Somewhat likely
   Not very likely (end)
   Not at all likely (end)

3. What primary do you plan to vote in?
   Democratic primary (end)
   Republican primary

4. In the Republican primary for Governor, who do you plan to vote for?
Darren Bailey
Richard Irvin
Gary Rabine
Paul Schimpf
Max Solomon
Jesse Sullivan
Undecided

5. In the Republican primary for Senate, who do you plan to vote for?
Casey Chlebek
Matthew Dubiel
Peggy Hubbard
Bobby Piton
Kathy Salvi
Jimmy Lee Tillman II
Anthony Williams
Undecided

6. If Donald Trump endorsed a candidate, would that make you more or less likely to vote for that candidate?
More likely
Less likely
No difference

7. What do you think is the most important issue facing Illinois?
Healthcare
Education
Economy (jobs, inflation, taxes)
Crime
Covid-19
Ukraine-Russia war
Immigration
Something else (please specify)

8. Which candidate do you think is best suited to tackle crime in Illinois?
Darren Bailey
Richard Irvin
Gary Rabine
Paul Schimpf
Max Solomon
Jesse Sullivan
Undecided

9. Which candidate do you think would best handle the economy in Illinois?

Darren Bailey
Richard Irvin
Gary Rabine
Paul Schimpf
Max Solomon
Jesse Sullivan
Undecided

10. Which of the following statements comes closest to your position on abortion?
Abortion should be legal in all cases
Abortion should be legal up to 20 weeks of pregnancy
Abortion should be legal up to 6 weeks of pregnancy
Abortion should be legal only in cases of rape, incest, and when the woman's life is endangered
Abortion should be illegal in all cases

11. For statistical purposes only, can you please tell me your ethnicity?
Hispanic or Latino of any race
White or Caucasian
Black or African American
Asian
Other or multiple races

12. What is your age range?
18-29 years
30-49 years
50-64 years
65 or more years

13. What is the highest level of education you have attained?
High school or less
Some college
College graduate
Postgrad or higher

14. Please select the type of area where you live
Urban/city
Suburban
Rural

15. What is your gender?
Male
Female
Nonbinary or other

16. What congressional district do you live in?
