May 28 **ALL School Last Day of School—  
Early release at 12:30pm NO lunch  
NO Afterschool care, NO childcare**

## Poetry Corner:

Tic-toc, tic-toc, tic-toc  
its a clock!  
Tic-toc, tic-toc, tic-toc  
it really rocks!  
Tic-toc, tic-toc, tic-toc  
it does not walk!  
hicky, ricky, ticky toc.  
-Mateo, 4th grade

It's almost the end of the school year,  
summer is almost here.  
I can't wait to go to eat a peach,  
and maybe go to the beach.  
I can't wait till camp,  
I'll be a champ!  
My birthday is a fun day  
for me and my friends.  
I can't wait till summer  
where the fun never ends!  
-Havilah, 5th grade

School is almost out,  
I am going to pout.  
School is almost done,  
but i'll have fun in the sun.  
I will miss my friends,  
when school ends.  
One week more  
and then we're roasting s'mores.  
I will miss school,  
but then I'm hitting the pool.  
-Luke, 5th grade

## **Classroom News:**

### Grades 3-7

This week Makenzie wasn't here all week and Ivan wasn't here on Tuesday, Thursday, and Friday. Tuesday we brought our science fair projects to school and on Wednesday we presented them. Wednesday after school we had an open house and during it, toward the end, we had a small fire from someone's project but they put it out fast. We were glad it was small and not big. Also the upper graders watched a movie in social studies on Wednesday and Thursday. On Thursday and Friday, We took our end of the year math tests. Wednesday was Colton's birthday, and Thursday was Nolan's birthday. – Addie, 7<sup>th</sup> grade

### Grades 1-2

The highlight of this week was the science fair on Wednesday. The students did a great job and it was fun seeing everyone's projects! In P.E. we're practicing our soccer skills. In Bible we started our final unit for the year on the Bible. We are learning about who wrote the Bible and how the Holy Spirit inspired the Bible authors. In Social Studies we are studying the Southwest Region of the U.S., which includes Texas, Oklahoma, New Mexico, and Arizona. It is a small region (with only four states), but contains many interesting natural landmarks and cultural traditions. We are looking forward to the end of the school year next week. Remember that Friday is the last day of school and we will get out early, at 12:30. Parents, look for information about our last-day party next week.

### PreK/Kindergarten

The kindergartners are learning about Saul's conversion. They also are learning about Jungle animals from Borneo. The kindergartners made a snake for art and a sloth. They also colored orangutan coloring pages [they later cut them out to make orangutan masks]. They have been practicing their songs for graduation. – Sydney, 3<sup>rd</sup> grade

### Preschool / PreK

This week the preschoolers read a Bible story about Elijah and the ravens that fed him. For their science fair project, they made bubble art. They practiced their ABCs as well as their graduation program. The bunny [Gus] was out when I was interviewing their teacher. It was so cute! – Joshua, 6<sup>th</sup> grade

## **How To: Make starch "mud"**

This is how to make my science project. First take half a cup of water and put it into a big bowl. Then take one cup of cornstarch and mix them together. It is very hard to mix. You can add food coloring, but be careful because if you don't wear gloves, the food coloring might stain your hands. This "mud" is fun to let flow through your fingers like a liquid, but it is hard if you hit it with a hammer. – Nolan, 4<sup>th</sup> grade
