

## March 26 Quiz

Solve the questions below. Then in a text to my phone (402-770-5092), send me the answers. Be sure to include your name with the answers.

1. Find  $1/5\%$  of 480.
2. Jay bought 9 baseballs for his team for \$3.99 each. The sales tax was  $4\frac{1}{2}\%$ . How much did he pay?
3. Tom's dad drove 450 miles in 4 and  $1/4$  hours. How fast was he driving? Do you think the police might have given him a ticket for speeding? Round to nearest whole number. (What kind of car do you think Tom was driving?)
4. A circular garden needs a fence to keep the rabbits out. How much fence is needed if the radius of the garden is 15 feet? Round to nearest foot.

Example text message format:

Alice

1. 23.6 ft

2. 16 ft squared

3. 8.2 in

4. 89
