

DISCOVER OUR RANGE OF LENSES

POLYCARBONATE LENSES	USE	LIGHT TRANSMISSION	LENS	COMPATIBLE WITH P	EXAMPLES OF APPLICATIONS
		96%	2C-1.2	-	Automotive, paint booth, quality control
	GRADIENT BRONZE	88%	5-1.1/1.4	-	Artificial light, activities under static stations, quality control, automotive steelworks
	AMBER	 82%	2C-1.2		Agricultural and forestry environments, mechanical work, night vision, warehouse
	COPPER	 65%	5-1.4		Factory with LED lighting, fork lift truck operators, drivers, night works
	COPPER FLASH	 65%	5-1.4	-	Factory with LED lighting, fork lift truck operators, drivers, night works
	BRONZE	 40%	5-2		Mines, Electricity, outdoor works
	QUARTZ	 16%	5-2.5		Drivers, low-light conditions' works
	SMOKE	 13%	5-3.1		Outdoor works, construction (building, public works)
	POLARIZED	 13%	5-3.1	-	Outdoor activities, drivers, marine, drilling rig
	SILVER FLASH	 13%	5-3.1	-	Outdoor activities, drivers, marine, drilling rig
	COBALT FLASH	 13%	5-3.1	-	Outdoor activities, drivers, marine, drilling rig
	FIRE FLASH	 13%	5-3.1	-	Outdoor activities, drivers, marine, drilling rig
	WELDING 5	 2%	5	-	Gas welding, oxygen cutting
	WELDING 5 GREY	 2%	5	-	Gas welding, oxygen cutting

SAFETY

SEE ALL
YOU CAN DO

CSP
COMFORT. SENSE. PERCEPTION.

DON'T JUST
PROTECT
YOUR EYES

IMPROVE
WHAT YOU USE
THEM FOR

WITH MULTIPLE TINTS AND TECHNOLOGIES TO CHOOSE FROM, OUR COMFORT SENSE PERCEPTION FILTERING TECHNOLOGY IS DESIGNED TO GO BEYOND PROTECTION AND ENHANCE PERFORMANCE. BY ENSURING OPTIMAL COMFORT AND EXCEPTIONAL VISUAL DEFINITION, NO MATTER WHAT YOUR PARTICULAR SITUATION ENTAILS, CSP LENS SHIELD YOUR EYES WHILE BOOSTING YOUR SENSES IN ALL UV & LIGHT-SENSITIVE SITUATIONS, INCREASING THE PRECISION OF YOUR MOVEMENTS.

SAFETY
AS A STATE
OF MIND

At Bollé Safety, we have always developed our protective equipment with the idea that safety is about more than a bunch of gear: it's a mindset. It's not just a matter of avoiding things, but about sharpening your skills and helping you overcome obstacles. It is about finding new ways to improve yourself, enhancing the way you work and focusing on getting the job done. Of course, your safety eyewear is there first and foremost to help you see better, but it goes beyond that. By improving your vision, the right eyewear will make your every move more precise, and ultimately your day more productive.

With Bollé Safety, see all you can do.

COMFORT

Visual comfort is all about contrast optimization and color enhancement. Regardless of sunlight and glare, you want to keep enjoying precise details and color accuracy. With CSP, our lens tints are adapted to unique work environments, ushering in a new era of exceptional visual definition.

SENSE

Sight is one of the key senses that ensures our safety. By perceiving their environment and analysing potential risks, workers are able to ensure their well-being. With ANSI Z87.1 rated lens, CSP optimizes vision even in UV & light-sensitive situations, guaranteeing maximum visual acuity.

PERCEPTION

Thanks to CSP's unique properties, visual cognition is improved through ultra stimulation. By going beyond what the eye can see, we can take full control of our capacities, for optimal precision and ultimate performance enhancement.

INDOOR

INDOOR / OUTDOOR

TINTS AND TECHNOLOGIES FOR EVERY NEED

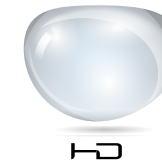

WHEN WORKING INDOORS, LIGHTING CAN BE TOO WEAK OR TOO AGGRESSIVE. ENSURING **MAXIMUM CLARITY** WHILE PROTECTING THE EYES FROM THE HARSHNESS OF ARTIFICIAL LIGHTING, OUR INDOOR LENS OFFER **ENHANCED COMFORT** IN ANY TYPE OF INDOOR WORK ENVIRONMENT.

EXCEPTIONAL CLARITY

Improves perception and clarity thanks to its exceptional visible light transmission rate (96%).

Increases wearer acceptance rate by offering greater visual comfort than conventional clear lenses.

With its hydrophobic technology used by the automotive industry, the HD coating guarantees perfect water resistance.

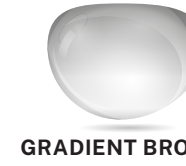

OPTIMAL WORKING COMFORT

Counters the aggressiveness of artificial lighting.

Reduces eye fatigue for optimum working comfort and improves contrast and relief.

Ideal for static workstations under neon light, halogens or other sources of blue light that can affect the eyes.

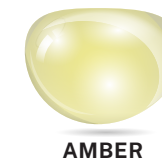

WORKERS WHO NAVIGATE BETWEEN INTERIOR AND EXTERIOR ENVIRONMENTS NEED VERSATILE LENSES THAT WILL ENSURE **OPTIMAL VISION** WHATEVER THE SITUATION. OUR INDOOR/OUTDOOR TINTED LENS PROVIDE THAT **FLEXIBILITY**.

CLARITY IN DIM LIGHTING

Recommended for low light environments, both indoors and outdoors.

Increases contrast, particularly useful for night driving.

Filters out harmful blue light.

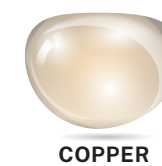

SEE THROUGH EXTREME CONDITIONS

Ideal for all activities requiring exposure to alternating high and low light.

Adapted to environments with extreme temperatures.

Blue light filtration combined with our exclusive PLATINUM anti-fog coating.

LET IN THE GOOD LIGHT

Provides optimal visible light transmission (over 60%).

Reduces glare and reflections when moving from a dark to well-lit environment.

Filters out noxious blue light.

OUTDOOR

WELDING

WHEN WORKING OUTDOORS, WORKERS REQUIRE **INFALLIBLE PROTECTION** AGAINST INTENSE LUMINOSITY AND UV RAYS TO ENSURE THE SUNLIGHT DOESN'T PREVENT THEM FROM ENJOYING **OPTIMAL VISION**.

IDEAL FOR LOW LUMINOSITY

Recommended for work outdoors at dawn or dusk.

Improves contrasts in low light and absorbs over 75% of blue light.

Compatible with our exclusive double-sided PLATINUM anti-fog and anti-scratch coating.

SOLAR TINT

Improves depth perception and contrast by increasing the visual acuity.

Blue light filtering, enhancing the color red.

Reduces glares.

THE END OF GLARE

Improves color perception and visual comfort.

Improves perception of contrast and depth.

Reduces eye strain.

TOTAL UV BLOCKER

Offers highly effective filtering of UVA and UVB rays (99.99%).

Compatible with our exclusive double-sided PLATINUM anti-fog and anti-scratch coating.

PROTECTION IN THE HOT SUN

Ideal for use in full sunshine.

Protects wearer from heat.

Can be combined with Polarized technology.

WELDING REQUIRES ADEQUATE PROTECTION FROM INTENSE LUMINOSITY. BY COMBINING THAT PROTECTION WITH **ENHANCED VISION**, OUR LENS PROVIDE WORKERS WITH **HEIGHTENED GESTURE PRECISION** AND THEREFORE **EFFECTIVENESS**.

FOR WELDING-BRAZING AND OXY-CUTTING

2% light transmission.

Protects from UV and infrared radiation.

Adapted to gas welding and oxygen cutting.

Welding 5 grey offers a better color recognition for increased accuracy and effectiveness.
