

December 29

LOCAL CONFERENCE EVANGELISM

Today's offering makes it possible to grow the churches right here in the Kansas-Nebraska Conference. This past year the Conference Evangelism fund provided \$180,000 to assist churches meet the expenses of their evangelistic efforts. However requests for more than \$225,000 were made. The offering you give today promotes healthy, robust and aggressive evangelism reaching into our communities, spreading the good news of Jesus and His end-time message of compassion to the world. Hundreds of people have been baptized and we have seen a marked increase in evangelism this past year. As well as giving generously, please pray that our Conference evangelism funds will grow to meet the increasing programs local churches are providing to their communities.

You will be supporting these efforts this morning as you place your offering in the tithe envelope and mark it "Conference Evangelism". Thank you in advance for making a difference for eternity.
