

Practical guidance for attendance **morning or evening** services:

- If you feel unwell, please do not attend
- If you are worried about attending, please feel under no obligation to attend
- Please bring your own face-mask, to be worn throughout the service.
- There will be no pew Bibles, so please bring your own or use your phone (church wifi details – name: St John's Guest, password: welcome0511)
- There will be no refreshments, but you are welcome to bring your own water bottle and take it away with you
- It really helps if you arrive early!
- On arrival you will be greeted by the welcome stewards and asked to use the hand sanitiser
- You will then be asked to register attendance for "track and trace" either manually or by using the QR code (only one person per household needs to do this)
- Then you will be directed to your seat via the one-way system (filling up from the front is a great help)
- Once seated, please limit any movement around the building. Households, please remain together; household hubs can sit together
- Toilet facilities are available
- Sadly, we are not yet permitted to sing during the service but there will be live music for prayer and reflection
