
MEN'S RETREAT TRAVEL & GUIDELINES

If you are planning to travel to camp via one of the two trails that lead to the camp, please use the buddy system or leave a travel plan with someone for your own safety. Weather conditions will dictate whether the trail down Alfreds Creek or Squaw Creek will be the best one to take. Contact Fritz Plier @ 376-9179 if you need direction or if you would like to tag along with another group.

If you are planning to fly in, please contact Danny Whatley @745-5221 or Joe Koliadko @ 745-2222 for information on the runway. The airstrip is 850' long, becoming shorter the past several years due to washouts and it has bad approaches at each end. This is **not** the airstrip to practice your newfound bush pilot skills. Please monitor 122.9 and announce your intentions and position when within five miles of the airstrip.

If you need to be flown into camp, contact Mike Meekin at Meekin's Air Service well in advance of the retreat to schedule flight into camp. Call 907-745-1626 or check their website at www.meekinsairservice.com. Weight limit for baggage is **50 lbs.** for those being flown in.

Children: Some retreats allow for children of all ages to participate, while other events are age-restricted. Please check the registration form to see if there is an age restriction as some retreats touch on sensitive matters that are not appropriate for children.

CAMP RULES

- (1) Leave dirt bikes and three wheelers at home! Don't be the object of a rescue going in and out of camp.
 - (2) Practice firearm safety at all times. **Please no shooting during the Sabbath hours.** Use only the designated shooting areas.
 - (3) Be respectful of others and enjoy quiet time from 10 pm to 7 am.
 - (4) Please use the designated outhouses.
 - (5) Please clean up after yourself and pack out all trash. Kent Sandvik has graciously allowed us to use his camp, so let's keep it clean.
 - (6) Check for air traffic before driving near the runway. Drive ATV's next to the runway, **not on the runway.**
