Learning about hygiene in science class (brushing our teeth) and why handwashing is important (We swiped germs from around the school and there are lots of germs everywhere even though we clean!)

Hot Lunch—\$4

Tuesday—Pizza

Thursday—Mac & Cheese

Classroom News

Mrs. Davidson's Class

Wednesday this week, the 5-8th graders went to Boise Valley Adventist School to present what they have learned about cells and organelles, and listen to their 6-8th grade presentations. The students did a fine job - they were able to kick their nervousness and presented well for their first try! We hope to do more collaborative projects in the future.

Earlier, on Monday, the lower grades got to see the results of their germ samples from various locations in the school, which had the weekend to grow on petri dishes. Based on the number and different types of growth colonies, they decided that washing your hands frequently (before eating, after using the restroom, and after touching anything known to be germy) is very important! They made posters and put them up around the school reminding everyone of some helpful health practices. Here's to hoping everyone has a healthy winter season!

We finished our Bible unit this week on God's Promise to Save, and have learned the plan of Salvation. Praise God he has a plan! The students have been practicing their kicking skills in PE this week, and we played a game of kickball today, which was a first for many of the students!

Today we also started a STEM unit called Build It! which has the students learning about architecture and how it combines science, engineering, and art. See if you can find any interesting buildings this weekend!

Teacher Martha's Class

We have had a fun week! We have celebrated fall! We went to the pumpkin patch. The kids had a blast, came home with a few extra pounds of dirt and a pumpkin! We visited Twin Oaks Farms for the 1st time. It was a fun experience, saw some new animals and had a blast on the slides and tractor rides. We brought back a big pumpkin for our classroom and are excited next week to turn it into a puzzle and roast the seeds.

We practiced our smiles in preparation for picture day. The kiddos looked so cute! They were so excited to have their turn!

We made a cake to celebrate our high school students. Haylee and Grace had September and October birthdays, so we helped them celebrate!

We capped the week with pears! Our church food bank had more pears than they could use so we made pear sauce! The kids loved helping cut, and mash the pears and of course eating it was wonderful!

Teacher Holly's Class

We are learning about different types of water transportation as we talk about Paul and the Shipwreck. Paul told the captain he shouldn't sail because a storm is coming. The captain didn't listen and the ship was wrecked. Despite all that, God protected them when Paul prayed. Everyone made it to shore alive.

We made shapes from potatoes then used them to create beautiful pictures with paint.

We continue to work on counting. They should have brought home their own counting stick. (Pipe cleaner and foam beads) Counting each bead as they slide them over is wonderful practice for one to one correspondence. Working on the difference between rote count and counting objects.

Twin Oaks Corn Maze was fun. A couple slides, trying to catch bunnies, pumpkin hunting, and a cow train were the high lights.
