"WHEN THE EARLY CHURCH...became corrupted by departing from the simplicity of the gospel and accepting heathen rites and customs, she lost the Spirit and power of God; and in order to control the consciences of the people, she sought the support of the secular power...In order for the United States to form an image of the beast, the religious power must so control the civil government that the authority of the state will also be employed by the church to accomplish her own ends.

Whenever the church has obtained secular power, she has employed it to punish dissent from her doctrine. Protestant churches that have followed in the steps of Rome by forming alliance with worldly powers have manifested a similar desire to restrict liberty of conscience...It was apostasy that led the early church to seek the aid of the civil government."
