# ***SAMPLING OF THE PREMIER PROGRAM***

---

**These samples are not from one particular grade, but are chosen at random from  
Grades 7 & 8**

## ***MOORE ACADEMY CURRICULUM SAMPLING***

Grades 7 & 8 are the last opportunities to make sure the student is ready for high school. Therefore, a comprehensive study through a rewarding research program has been prepared for these students. Parents as well as students have found this program an exciting adventure where they can discuss and share what they are learning.

These years are also a time to fill in some of the blanks in the areas of Science. An exciting study opens the student to a broader look at the Earth they live in.

# ***BIBLE***

## **with the Moore Academy homeschool program**

### ***Beyond Orion's Gates***

**Topics or Concepts to be covered:** a book written with teens in mind (a fun look at how war began in heaven, down through the ages, and then the **student's part in the war behind all wars**...strongly suggested reading for the mature Grade 8 student)

**Samples to keep for your records:** Keep a journal telling what spiritual lesson was introduced in each chapter and your personal response to it...

# ***SCIENCE***

## **with the Moore Academy homeschool program**

1. Where is the Prime Meridian? Why is the earth made up of lines of latitude and longitude? What is the International Date Line? Do you know what the different time zones are?
2. Can you name and locate the countries of Central America on a map? What peoples live in that area of the world? What is their heritage?
3. What is a river system? Draw the largest one in North America. Show the land formations that would help to make this river system. What is the Great Divide?

# ***ENGLISH***

## **with the Moore Academy homeschool program**

**Write one of the following:**

1. A journal as would have been written by one of the adventurers.
2. A letter to a friend from another one of the adventurers, telling about the adventure he was on.
3. A newspaper article that might have been written about one of the adventurers when he returned to his home country.
4. The memoirs of one of the adventurers that he writes, as he is on his death bed.

# *PHYSICAL EDUCATION*

## with the Moore Academy homeschool program

**Suggested Resources:** hiking and backpacking, bicycling, swimming, gymnastics, ball playing, gardening, and outside chores.

**Concepts:** to build and maintain a strong healthy body.

Physical Education is just what the words imply. It is the work of educating one's body in physical activity or labor. This program is best accomplished at the end of a shovel or a hoe. The Moore Academy homeschool program does not promote competitive sports activities, but would prefer students to gain health and vigor through producing a garden, doing some landscaping, or some outdoor manual labor.

# *WORK & SERVICE*

## with the Moore Academy homeschool program

**Resources:** all around you.

**Concepts:** Mental, physical, and social health.

**Samples for Evaluation:** prepare a monthly chart on which to write the service projects done. This can be used for work and PE as well.

Work and Service Education is what the subject title implies. It is an educational process whereby the student is to learn new skills within the home-chore framework as well as in service to the community. The student should also be working towards excellency as well as displaying positive attitudes. The student should be directed on how to look for opportunities of service as well. Learning to give service with a loving spirit is the goal. Students should also be taught to be aware for the needs of others.
