PREFACE

Over the years my dear wife Linda has been one who asks questions as her way of beginning to solve problems. Since we are both Christians, we often talked about the Bible. Then, when I wrote the book *Jesus and His Teachings*, she asked many questions asking me to clarify what I meant things. This gave me the idea that I should take the information in that book and write a new book in a question-and-answer format. That is this book.

Bible Answers covers a large array of Bible topics, mostly of a doctrinal nature. However, chapter 1 particularly contains questions and answers related to certain scientific matters where they intersect with Bible truths, such as Creation, the Flood, and the story of the Tower of Babel. Some historical information concerning where several theological interpretations originated are also interspersed throughout the book, although it is certainly not an exhaustive source of historical information on the development of historical theology.

I want to thank my wife Linda for her patient endurance while I was working on this project.

May the Lord richly bless you as you read this book! I pray that you will either learn new truths or at least to better appreciate the truths that you already know.
