

Mrs. Wessman's Class

Volume 19, Issue 2

September 8, 2020

Join Up With Seesaw!

Have you checked out your child's work samples on Seesaw? If not, you'll want to use the QR code that you received last week and check it out. Also try the parent tutorial link you received by email. Seesaw is simple, and we want to get everyone trained just in case!

Photos: Outdoor worship, first day friends!

This Week -

We're learning about problems solving skills this week. We'll learn the difference between big problems that need an adult to solve, and small problems that kids, with the right skills, can solve themselves.

Reading Testing

This Thursday our class will be going to the computer lab to do Star Reading testing. This determines a child's reading level and comprehension. Then we'll be ready to make reading groups and begin growing as readers.

Bible Lessons

We're beginning Bible this year in Genesis with the story of creation. We'll also be learning/reviewing how to find various books of the Bible. For some, this will be a new skill, and others already have it down and will be great helpers! Our memory verse is: In the beginning, God created the heavens and the earth. Genesis 1:1

Calendar

- Sept. 17- Jacob's VIP
- Sept. 24- Isla's VIP
- Oct.. 7- Teacher In-service, 1/2 day

Word of the Week

UNANIMOUS

Spelling Words

None this week. They're coming soon!

Overdue Library Books

No library yet. It will happen soon!

Guest Speakers

While we can't have any guests in our classroom, we can have as many Zoom guests as we want to! If someone in your family has visited a famous place in the U.S. and wants to show and tell about it, create a presentation and zoom in with us. We're going places this year!

Sully's Show and Tell!
