Hundredth Day of School

On Wednesday, January 21, we will celebrate the 100th day of school! The kids have been counting the days, literally! We will spend the day doing fun activities that focus on the number 100. I will be sending home a display board and I would like each student to work with their family on deciding how to collect and display 100 items on the board so they can bring it and show it to the class. 5th & 6th Grade Mrs. Janet Lopez

Hello Parents! This week in Bible we started our study of the prophet Daniel and the book of Daniel. It is interesting to learn of the culture in those days and how their thinking and understanding is so different than ours is today.

We have a student teacher, Sharna Nash! Welcome Mrs. Sharna to our school if you see her. She is teaching Language Arts and has started out teaching about Nouns! It is fun getting to know her. She is also teaching 5th grade math. They are studying about fractions.

In 6th grade we are learning how to change percents into fractions and decimals and vice versa.

In science we are learning more in depth about each of our body systems and the jobs that they do. We have also learned about the types of thinking our brain does. The human brain is so amazing!

In Social Studies we are learning about what Colonial life was like in North America. How they struggled at first to get enough food and other supplies to survive. How the Indians helped them and finally the trades that are starting to develop.

Welcome to our Korean students! There are five Korean students visiting our class for two weeks. We are enjoying getting to know them and learning their culture.

Have a great weekend!
