

Hello Everyone

I finally have the prices for both the walnuts and Hachiya persimmons.

For the Hachiyas, I've had a hard time finding them in Northern California. Most orchards have only a few trees and they dry them and sell them to restaurants. Plus the crops the last three years have been small which has driven the price up considerably. But if you want Hachiya persimmons I will have a limited amount.

For walnuts, prices are unchanged from last year.

I have also attached an updated flyer

Below are the prices.

- **Walnuts** in 3 lb bags: \$18
- **Walnuts** in 25 lb boxes: \$140
- **Hachiya Persimmons**: \$45/box (20 lb box)
