IN PARTNERSHIP WITH

A MESSAGE FROM THE SOLAL MARKETING AWARDS CHAIR

WELCOME BACK TO THE SOLAL AWARDS

It's been a while!

The last few years have been more challenging than any of us can remember with fundamental changes to our businesses and among our customers.

Despite this, we've seen evidence of huge resilience in our sector with retail and leisure destinations managing to maintain morale and keep striving to deliver positive communication with their audiences despite all the emotional and financial pressures of the pandemic.

It's with this in mind that ECSP wanted to re-set the Solal Marketing Awards. For 2022 we're relaunching them with the very best work of the last couple of years celebrated later this autumn.

Despite all the challenges that Covid has given us, along with the impact of the war in Ukraine, we want to reward the brilliantly innovative campaigns that have turned the challenges of the last few years into commercial and community success stories.

But it's not just about Covid. We know there were many campaigns that took place before the pandemic which have yet to be acknowledged.

So, now's the moment to look back over your successful campaigns since 2019 and showcase the incredible work you've created.

Over 20 experienced judges from across Europe are set to review your work with the winners being publicized across Europe.

Let's look to the future - a Solal Star could soon be yours!

Alan Thornton
Solal Awards Chair
Managing Director

The Entry Summary is limited to four sections: one page for each element of the Summary. Please limit your response to approximately 2,100 characters including spaces.

It includes: The Goals, Action, Results, and Budget.

We recommend bullet points rather than narrative paragraphs.

1: GOALS (UP TO 10 POINTS)

What is the rationale behind the project?

Add any available research or business data which helps support the thinking behind the project.

Outline the basic facts and give a clear understanding of how the project is aligned with the overall marketing strategy.

The judges are looking for clear thinking behind the concept and an ability to measure effectiveness.

Make sure you provide clear, believable, measurable, SMART objectives.

2: ACTION (UP TO 10 POINTS)

How did you deliver the project? What did you do to achieve your goals? What were the resources employed? What was unique in the project development and implementation process?

Add relevant supporting evidence such as photographs, videos, and testimonials.

3: INNOVATION (UP TO 10 POINTS)

How was your project truly original?

What obstacles or difficulties were overcome?

Judges are looking for work that is ground-breaking and sets new standards for the industry.

4: RESULTS (UP TO 10 POINTS)

Return on Investment (ROI) demonstrates the euro-to-euro return that is achieved from your efforts and the resources invested.

5: BUDGET (UP TO 10 POINTS)

Did the amount spent appear to be a wise use of funds? Was the budget cost-effective in achieving its aims?

Show your project budget as a percentage of your overall marketing budget.

Each file is limited to a maximum of five minutes of content. Judges will only view or listen to the first five minutes of each file.

Accepted audio formats: MP3.

Accepted video formats: 3GP, AAC, AVI, FLV, MP4 and MPEG-2.

You may provide edited and narrated footage of actual events, publicity, and advertising as long as the video clip does not exceed the five-minute limit. Please note that this must still be considered your only eligible video file.

4. HOW THE JUDGING WORKS

THE JUDGES

The judging panel is formed of over 20 leading marketing professionals from across Europe. Entries are scored against specific criteria and each application will be judged multiple times to ensure a balanced score. Judges will not review entries from their own companies or projects where there could be a conflict of interest.

THE SCORING

The Solal Awards programme is designed to recognise the highest level of marketing excellence, so entries must achieve a minimum number of points to be considered for an award.

Entries are judged on their own merit to ensure that the size of centre or the size of budget do not affect the results.

There is no limit on the number of possible winners so any particular category may have many winners if the quality of entries is high. Conversely, if no entries meet the high standard of excellence required then there might be no winner in a particular category.

During the judging, any submission can be subjected to an audit and verification of the materials submitted.

The judging committee might need to reclassify or disqualify entries if required. All decisions are final and scoring results remain confidential.

5. TOP TIPS

1: ENTER THE RIGHT CATEGORY

Make sure you enter the most appropriate category. Some criteria overlap between categories so carefully check the definitions before you start.

Your project may be entered into more than one category; however, each entry must be adapted to the category's specific objectives.

2: TELL A STORY

Your entry needs a clear storyline with a beginning, middle and an end. The judges are unlikely to be familiar with your situation, so make sure your entry describes why and what you did, and outlines all the resources employed, the costs and the results.

3: BE CONCISE

The structure of your entry should be clear, concise, and relevant. Use short sentences and bullet points to convey detail.

4: BE SMART

Everything you submit should be Specific, Measurable, Achievable and Realistic, and a clear Timeframe.

5: BE HONEST

Show how the project achieved good value for money and Return On Investment (ROI), but don't exaggerate - the judges will spot this. If some aspects of the project did not work well, or gave you an idea for improvement next year, then this shows a believable and realistic approach.

6: EXPLAIN WHY

Explain why the idea behind your entry is good and why the implementation was successful. Why did you choose this idea and not something else? Was it aligned with your overall strategy? Did it answer your business brief? Were objectives and goals achieved? Is this entry a good benchmark for the industry?

7: DON'T FORGET THE POWER OF THE SUPPORTING MATERIAL

Make sure you have solid supporting evidence to show how you achieved your objectives. Images, photographs and/or videos, testimonies and market research results are always great advantages.

8: ALLOW ENOUGH TIME TO CREATE YOUR ENTRY

The best entries are planned well in advance and written with sufficient time for reviewing and editing.

9: BE YOUR OWN BEST CRITIC

Ask tough questions. Are you entering because you think you ought to apply, or because you have an excellent project? Is your entry innovative enough? Will it stand out? If you were a jury member would you give it a high score?

10: TEST THE ENTRY ON SOMEONE ELSE

Get someone not connected with your work to review your submission. If it makes sense to someone unfamiliar with your centre and the details of your project, you likely have a robust project.

GOOD LUCK!
