

Dear Squash BC Club and Facility members, club administrators and coaches

As you know, Squash BC has been working on behalf of squash in our province around the COVID-19 pandemic. We believe that if played responsibly, squash can be enjoyed safely within the new physical distancing guidelines and play a vital role in community well-being. Of primary importance is taking every precaution to help keep all participants safe.

Squash BC is pleased to provide you with recommendations to help your facility and members return to squash. Squash Canada, working collaboratively with all provincial and territory squash associations have developed these recommendations on Return of Play Guidelines for Squash Facilities.

Attached are three documents for your information:

- *Memo from the President - Re-opening your squash facility*
- *Return to Play Recommendations for Club Administrators, Coaches and Anyone Organizing Squash Activities*
- *Return to Play Guidelines for Players*

As an FYI - Squash BC will be sending a special e-newsletter with the recommendations for players return to squash tomorrow.

If played responsibly, squash can be enjoyed safely within the new physical distancing guidelines and play a vital role in community well-being. Of primary importance is taking every precaution to help keep all participants safe.

Squash BC will continue to share information, facilitate discussion and explore other ways to help support all of our squash facilities return to play.

Best regards
Nancy

Nancy Thompson
